## THE ULTIMATE LIFE COPILOT FOR SUCCESS

INTERNATIONAL  
CONVENTION  
2024

VYVO PRESTIGE CLUB  
& SUPERCAR AWARDS  
**CELEBRATING  
EXCELLENCE IN MIAMI**

## A Personal Note from Our CEO

*Dear Future Makers,*

Throughout our journey as a company dedicated to developing innovative technologies and creating opportunities for our community, I believe there has never been a more exciting and pivotal moment than the one we are about to experience.

The reason is clear: **the launch of VAI OS**, the most innovative and revolutionary product we have ever designed.

There are many reasons why I feel particularly excited and confident about the future. First and foremost, the **technological impact** of VAI OS, which will position us among the global leaders in AI development. Additionally, our entry into the world's fastest-growing market will allow us to reach a vast audience and achieve our ambitious goal: 1 million users by 2026. Not to mention the business model—since VAI OS is a subscription-based product, it will generate a strong residual income for our community.

However, today I want to highlight another crucial aspect, one that will begin taking shape in the coming months: **VAI OS as a SocialFi Copilot**.

We've often emphasized that VAI OS will be your *Life* Copilot, assisting you in various aspects of your life, tailored to your needs. But let's focus on one particular dimension: VAI OS as a SocialFi Copilot. This means it will help you become a true Influencer within your network, guiding you on how to approach this business, and—most importantly—it **will explain the product and business details directly to potential new Members**.

Even the growth, training, and mentorship journey of every Member will be guided by VAI OS as a SocialFi Copilot. And that's just the beginning: there are many exciting surprises ahead, starting with the new Vyvo SocialFi App, which **will continue evolving week after week**. Plus, more innovations will be unveiled at the Workshop (which, for many of you reading this magazine, is happening right now).

We are about to step into a new era, where our way of doing business will become truly digital, truly smart, and truly innovative. **Our vision for SocialFi is entering its final rollout phase.**

Enjoy this journey together.

*Alessandro Senatore*

**Alessandro Senatore**

# Spring Forward A Season of Growth and Opportunity

Dear Future Makers,

As we step into the spring season, it's a time of **renewal and opportunity**, not just for nature but for all of us at **Vyvo SocialFi**. The essence of spring resonates deeply with our ongoing mission—**fostering growth and embracing new possibilities**.

This season, we are particularly excited about the **advancements and expansions** within our ecosystem. Our commitment to integrating innovative technologies with practical applications continues to set us apart in the digital landscape. From **introducing VAI OS in its beta phase**, to **rolling out new features in our health and wellness devices**, each step forward is **designed with you in mind**.

Spring is also a period for **strengthening our community ties**. The warm weather and renewed energy make it the perfect time for hosting community events and workshops that bring us together, fostering a deeper connection among Members and Influencers. These gatherings are not just social events—they are **incubators for ideas and collaboration**, where you can **meet fellow Future Makers, share experiences, and learn from each other**.

This spring, we're doubling down on community-building and business growth. Our focus goes beyond blockchain, data privacy, and health monitoring—we're creating opportunities to develop skills, expand networks, and build sustainable success through exclusive **personal and professional development**. Whether you're a seasoned entrepreneur or just starting out, our platform is designed to be **accessible, enriching, and built for your growth**.

Looking ahead, we have several **exciting projects in the pipeline** that promise to **enhance the way you interact with technology and manage your life**. Our aim is to **lead the way** in creating a **more secure, health-conscious, and financially empowering environment**.

As we continue to **grow and evolve**, your role in this journey remains central. Your **feedback, participation, and enthusiasm** fuel our innovations and **inspire us to push boundaries**. *Let's embrace the spirit of spring together—growing, learning, and flourishing in every way possible.*

Thank you for your unwavering support and commitment to our shared vision. Here's to a season filled with **incredible growth and new achievements!**

## Dallas Server Farm Visit

### Witnessing the Power of VAI OS

It's a game-changing time for Vyvo, and when the first VAI OS GPU server farm went live in Dallas in March, Vyvo Influencers were there to experience it firsthand!

Ambassador Influencers—as members of the Prestige Club—and select incentive qualifiers traveled to Dallas for **this milestone moment**. While a building full of servers may not seem thrilling at first glance, there is nothing ordinary about VAI OS entering the beta phase! As people begin to use this Life CoPilot, the Dallas Server Farm will be critical in delivering a seamless and powerful platform that not only meets but exceeds expectations.

*And Dallas is just the beginning!* It's the first VAI OS server farm in the USA, and we anticipate more in Europe and Asia.

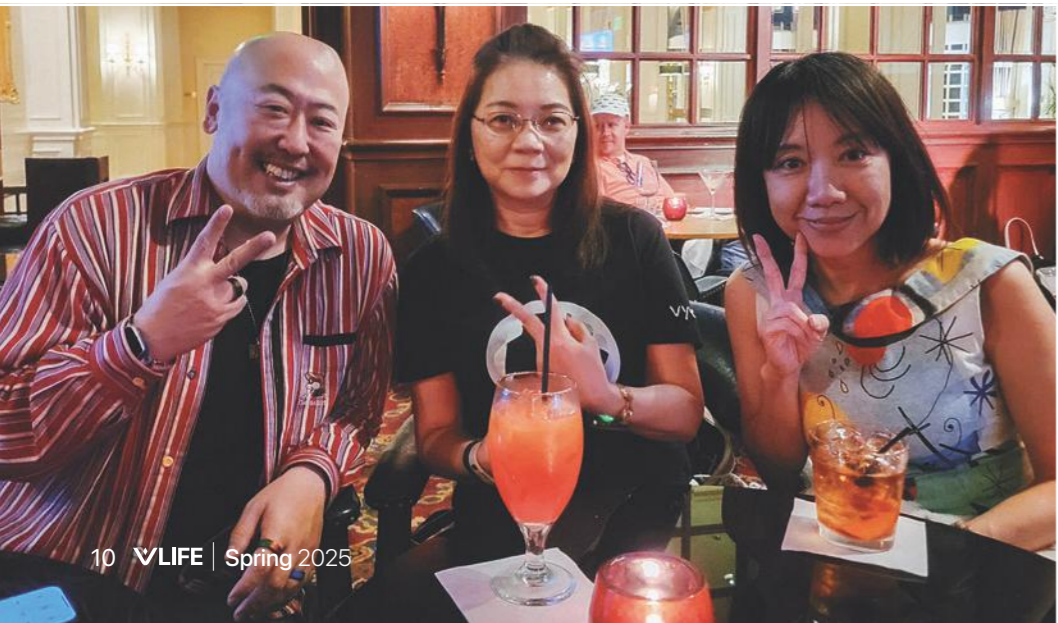

Everyone who purchases VAI OS GPU Clusters plays a key role in **building the infrastructure** that will power the future of AI-driven, decentralized computing. With the massive growth expected, every new server farm ensures we stay ahead of demand.

#### Top 5 Qualifiers

# Weekend Getaway in SOUTH KOREA

FEBRUARY 20-23, 2025

## Vyvo Weekend Getaway An Unforgettable Experience!

Qualifying Vyvo Influencers in Malaysia and Singapore embarked on a **next-level getaway in South Korea**, celebrating their achievements and contributions to the growing Vyvo community.

With momentum surging in Singapore and Malaysia, this event was the perfect way to bring together advancing Influencers driving the excitement. Each participant secured their spot by earning Lifestyle Points through their dedication and engagement.

Once in South Korea, they enjoyed **premium accommodations, meaningful connections, and unforgettable experiences**. The weekend was packed with authentic local cuisine, exciting adventures, and shared celebrations. Some of the biggest highlights included:

- A visit to a picturesque strawberry farm, where attendees hand-picked fresh fruit.
- Exploring the serene beauty of Nami Island, a beloved destination known for its breathtaking landscapes.
- A guided tour of Gyeongbokgung Palace, one of Seoul's most iconic historical landmarks.
- A Michelin-starred dining experience, offering a taste of Korea's finest cuisine.
- Duty-free shopping, a must for travelers looking for exclusive finds.

Given the overwhelming success of this event—captured in the stunning photos here—a future Vyvo Weekend Getaway could be coming to your market next. Don't miss your chance to be part of it!

# Leading Innovation

## Fabio Galdi on Merging Fintech with AI and Web3 at Vyvo

*In the ever-evolving world of technology, Fabio Galdi stands out as a visionary leader who has consistently anticipated and shaped future trends. Since the early 1990s, Galdi has pioneered groundbreaking advancements that blend technology with daily life, enhancing how we connect, live, and thrive. As the CEO of Vyvo, he has seamlessly integrated cutting-edge artificial intelligence and blockchain technology into lifestyle and well-being, creating an all-inclusive ecosystem that empowers individuals across the globe.*

*This edition of vLife Magazine is thrilled to feature another exclusive interview with Fabio Galdi, who shares insights from his journey. From his early ventures that shaped modern multimedia solutions to pioneering personal health monitoring at Vyvo, Galdi's path has been marked by relentless innovation. This journey is highlighted by his ventures at major tech events like CES in Las Vegas and receiving accolades such as the Deloitte Technology Fast 500, affirming Vyvo's role as a leader in the health and wellness technology sector.*

*Join us as Galdi divulges the secrets behind his visionary strategies and reveals how Vyvo's community-driven strategies are pioneering new standards in AI and blockchain,*

*enhancing personal wellness while championing privacy, personalization, and empowerment in the digital age.*

**From pioneering the People's Network to founding Vyvo, how have your early tech ventures shaped the innovative path Vyvo follows today?**

Identifying future trends has always been my forte. Just as Apple envisioned a desktop computer in every home, and just as the internet and smartphones have become ubiquitous, I see AI shaping our future in fundamental ways. At Vyvo, we're not merely following trends—we're establishing them, ensuring our AI technology empowers users like nothing else on the market. We're making AI enhance people's lives in deeply personal and globally impactful ways, similar to how these transformative technologies have reshaped society.

**With your extensive background in tech innovation, how does this experience influence Vyvo's approach to product development?**

Every successful tech story is built on collaboration. My journey from founding Mecotek, which brought cutting-edge multimedia PCs to global markets, to establishing Vyvo highlights the importance of visionary teamwork and strategic partnerships. This background has been vital in creating Vyvo's high-tech wearables and our unique

blockchain solutions, ensuring we stay at the cutting edge of technology and market needs.

**Vyvo's wearables offer more than health monitoring; they're part of a larger vision. Can you expand on how these devices contribute to global health advancements?**

Our devices go beyond simple health tracking; they are integral to a larger ecosystem designed to harness AI for comprehensive lifestyle enhancement. Imagine a scenario where every data point collected by our wearables helps fine-tune personalized AI interventions, not just improving individual health outcomes but also enhancing daily living and decision-making across our community. This integration allows our technology to contribute meaningfully to a unified approach to wellness and personal achievement within the Vyvo ecosystem.

**How does Vyvo's HealthFi and SocialFi platforms integrate into this broader vision?**

Vyvo orchestrates a symphony of interconnected innovations where each element amplifies the others. Our wearables don't just gather data—they are an integral part of a comprehensive ecosystem. With the Vyvo Smart Chain, we ensure that this data is secured and anonymized, enhancing user trust through blockchain's inherent transparency and rewards system. It's a transformative approach to personal and community wellness that pioneers the integration of advanced technology into daily life, setting new standards for how we live and interact.

**What role does Odee Digital Bank play within Vyvo's ecosystem, especially in relation to DeFi and Web3?**

Odee Digital Bank is our bridge to the future of finance. It integrates seamlessly with Vyvo's platforms, providing a

forward-thinking digital banking solution that aligns with the Web3 revolution. Odee enhances user autonomy and financial empowerment, allowing our community to manage and benefit from shared economic opportunities. By facilitating direct and transparent financial transactions, it returns power to the people, enabling every Member to leverage collective benefits and drive personal financial success.

**VAI OS is described as a revolutionary Life CoPilot. What sets it apart from other AI platforms?**

VAI OS is not just another AI—it's a life enhancer designed to intimately understand and interact with its users. By merging AI with blockchain, VAI OS ensures a personalized, secure, and proactive digital experience that continuously evolves and adapts to individual needs and preferences. Its unique capability to learn from user interactions makes it increasingly effective over time, providing users with a Life CoPilot that truly enriches their lives.

**In closing, how do you see Vyvo influencing the future of AI and Web3?**

We are at the forefront, carving out a path that others will follow. Vyvo's approach to decentralized, user-focused AI and blockchain technology is setting new standards in how technology interfaces with humanity. Our vision extends beyond just creating innovative products; it's about building a community-driven platform that empowers and enhances the lives of those who engage with it. This isn't just my project or Vyvo's project—it's a collective endeavor built by the people and owned by the people. We're not just participants in the tech industry; we're Future Makers shaping a future, together.

# Ambassador Influencers Reflect on Key Lessons from the Past Year

*Dedication and hard work continue to shape the Vyvo community, pushing us all to reach new heights. This past year, our Ambassador Influencers have set the standard for leadership and impact, and we celebrate their remarkable achievements. Their journeys serve as a reminder that growth comes not just from success—but from the lessons learned along the way.*

*To recognize their contributions, we asked each Ambassador Influencer to share their insights: What is the most important idea you've learned in your Vyvo business in the last 12 months?*

 **KAZUYA MARUYAMA  
MICHIIRO KATAOKA**  
Ambassador Influencers 5 Star

Looking back on 2024, the most important lesson we learned through Vyvo's business is the significance of continuous learning and relentless challenge.

The pace of technological advancements and market changes is faster than we can imagine, and what was common sense yesterday may no longer apply. In such a dynamic environment, we have realized that actively acquiring new information and being flexible are key to unlocking growth.

Learning is not solitary. By sharing knowledge and insights with our team, we can deepen our understanding and foster even greater development.

 **HIROTARO TAKAHASHI**  
Ambassador Influencer 4 Star

Over the past year, I have learned that I can build a community that can adapt to cutting-edge technology.

As more people become aware of the rapid changes in our era, effectively conveying our message through engaging visual and auditory presentations is crucial for expansion.

We have integrated in-person seminars every 45 days with online seminars twice a month. By deepening our knowledge and gaining confidence, we are steadily expanding our reach to new audiences.

 **SUSUMU IGARASHI**  
Ambassador Influencer 4 Star

The year 2024 was a turbulent yet transformative one for me—a year of renewed challenges and determination.

Since joining Vyvo, I have navigated numerous obstacles and hardships, continuously striving as a pioneer. Throughout this journey, I have placed my trust in Fabio and Alessandro, and the leadership of VP of Market Expansion Japan Shimizu-san. I have worked to lead and support the Japanese team.

Thanks to these efforts, 2024 brought remarkable achievements. Through Vyvo, I have learned invaluable lessons about the importance of community, leadership principles, and social contribution.

 **SHAN, CHAO HUNG  
KU, YUNG HSIN**  
Ambassador Influencers 4 Star

Vyvo has taught me that true leadership is about building a legacy. I am not just creating personal achievements and success but also nurturing the next generation of leaders. I focus on developing a self-sustaining and mutually supportive team system, enabling them to lead others as well. This is the true path to long-term business success.

 **WANG, HUNG MING  
CHEN, CHIA LING**  
Ambassador Influencers 4 Star

Vyvo's Web3 ecosystem created by blockchain technology and the AI powered by GPUs are the two biggest global trends for the next 10 years. Vyvo is at the forefront of this movement, which means we may face challenges from those who are unfamiliar with or have never heard of these innovations. However, as we are in the early stages of industry expansion, this is also the best time to seize the greatest opportunities.

 **LIN, YU TI**  
Ambassador Influencer 4 Star

Thank you, Vyvo, for allowing me to see the future of the world. Wealth is limited by our knowledge, and trends wait for no one. Challenges are inevitable in the process of innovation. Only with unwavering belief and strong determination can we follow the company and Fabio without fear to fulfill our vision and mission. Through Vyvo, I embrace the faith of helping others and create a life of true value.

**YOSHIE KOMAMI**  
Ambassador Influencer 2 Star

With Vyvo, I have gained valuable insights into the importance of health management and preventive healthcare using wearable devices from Vyvo Technology.

Additionally, I have deepened my understanding of business models that leverage AI and big data. I have also honed my skills in audience engagement and branding through social media, while gaining exposure to digital payments and decentralized finance, which are becoming essential in today's economy.

Vyvo operates with a global business model, allowing me to learn about international market expansion and strategies in diverse cultures.

**YUKIKO TAMURA**  
Ambassador Influencer 2 Star

In 2024 I learned about the evolution of AI, and I was particularly impressed by Vyvo's relentless pursuit of cutting-edge advancements. While generative AI has become mainstream, I realized that the practical implementation of adaptive AI will still take some time.

I am deeply inspired by Vyvo's AI innovations. Learning about GPU clusters reinforced my belief that 2025 will mark the beginning of the AI era. Vyvo's blockchain technology ensures that users retain ownership of their data, which further deepening my appreciation for this groundbreaking approach.

**CHIHO YAMASHITA**  
Ambassador Influencer 1 Star

This year, through Vyvo, I had the opportunity to explore the new possibilities of AI and blockchain.

Stepping into an unknown world is always exciting, yet at the same time, I found myself constantly contemplating how to effectively communicate the potential of this transformative system.

To help others better understand, I first needed to deepen my own knowledge. This year was a journey of continuous exploration—moving step by step in a state of discovery. I am confident that this experience has significantly expanded my own potential.

**CHIU, HWA LIH  
CHANG, HSUAN WEI**  
Ambassador Influencers 1 Star

2024 has been a year of integration for our team, successfully cultivating six new Ambassadors and achieving both collective growth and life transformation.

Success comes from the power of talent uniting together. In 2025, we will expand our territory fivefold and create a brilliant future together!

**MAKIKO SOEJIMA  
AKIHIRO INOUE**  
Ambassador Influencers 2 Star

One of the most significant areas of growth I have experienced through Vyvo is developing a greater awareness of technology-related news, global trends shaping the future, and the current state of Japan.

Thanks to Vyvo, I was introduced to complex and unfamiliar terms that I had never encountered before. Hearing these words from Fabio has been a truly eye-opening experience.

Through continuous learning, I have gradually been able to grasp these concepts, and the ability to gain insights ahead of others has reinforced the incredible value and privilege of being part of Vyvo.

**TU, YA LI**  
Ambassador Influencer 2 Star

Over the past year, the most important lesson I've learned in my Vyvo journey is belief—believing that the wave of AI trends has already arrived, believing in Vyvo's unique business opportunities and innovative model that can benefit people worldwide.

Additionally, having clear goals, taking consistent action, and staying closely connected with the team are essential to achieving our dreams together.

**CHEN, CHIUNG MIN  
CHIANG, CHI SHAN**  
Ambassador Influencers 1 Star

We must continuously absorb new professional knowledge because technology is constantly evolving. It also requires dedicating more time to learning than the average person, so we can educate our partners with the right knowledge and mindset.

This is not just about making money—it's about spreading Vyvo's core values, building a platform, fostering a shared economy, and working together to change the world!

**LIN, YA LI  
LIN, MENG SHAN**  
Ambassador Influencers 1 Star

In this rapidly evolving era, the Web3 world is constantly changing. To stay competitive, we must remain flexible, embrace change, and stay informed about emerging trends while actively engaging with them. Only then can we lead more people to see the future!

**YU, CHIN LING  
WANG, YAO CHUNG**

Ambassador Influencers 1 Star

The team needs to be connected to the system. Improve thinking through education. Enhance the height of the extended community. Help to understand the charm of the career. Attitude of the successful. Set clear goals. Through teamwork. Cultivate more talents. Together, become influential people.

**KUO, FANG WEN  
PAN, PIN JU**

Ambassador Influencers 1 Star

Embrace challenges, take responsibility, and learn to solve problems. Never forget your original intention, think innovatively, and love the path you've chosen. Keep growing continuously and stay committed with unwavering belief.

Approach the community with love and inclusiveness, lead with genuine care, and inspire others with sincerity. Give your all to achieve excellence in everything you do.

**LIN, YU CHIEN**

Ambassador Influencer 1 Star

The tech innovation industry requires continuous learning with passion. By keeping up with every goal challenge and reward program, the community will gradually expand.

**HSU, WEI YUN**

Ambassador Influencer 1 Star

Over the past year, the most important concept I've learned is that every bit of influence holds value. We don't need to compete to be influencers; we simply need to connect with love and embrace a mindset of altruism. That alone is enough to create impact and lead those who believe and are willing to join us on the path to prosperity.

**HU, CHUAN CHUAN**

Ambassador Influencer 1 Star

Build a global community that embraces new models and collaboratively creates a mutually beneficial ecosystem. Provide the market with a unique and groundbreaking business model, and leverage the shared platform to give ordinary people an opportunity for financial redistribution, spreading prosperity to everyone.

**CHO, CHUN I**

Ambassador Influencer 1 Star

Continuous learning is the key! Last year, the company introduced VAI OS, sparking my exploration of AI. AI can significantly enhance efficiency, and as we navigate this emerging field, self-learning and improvement are necessary—but they will also lead to great rewards!

**CHIU, TSUI YUAN  
HUNG, WEI CHE**

Ambassador Influencers 1 Star

It is the team atmosphere of love, prosperity, and happiness that made us wholeheartedly commit to Vyvo. We realized that we no longer have to fight alone—we can build our business through mutual support and kindness, surrounded by a warm and supportive community for learning and growth. We are also grateful for the arrival of the big data era, which allows us to integrate our business, mission, and philanthropy into a lifelong pursuit. In one sentence: Everything is truly amazing!

**CHIANG, PO LIN  
WU, LIEN I**

Ambassador Influencers 1 Star

"Courage" is the key. In this new era, we must learn trends, share boldly, and take that step to create opportunities for ourselves and others. In this business, we not only develop interpersonal skills, but we also grasp evolving trends, making continuous learning essential.

**WU, PING CHEN**  
**CHENG, CHING YI**

Ambassador Influencers 1 Star

Through Vyvo’s visionary blueprint, we have learned that fintech is rapidly evolving! Within the health data project, we have truly realized the importance of health monitoring and the immense value of the data-driven world!

**SHIH, YANG FENG**  
**SHIH, JYUN YUAN**

Ambassador Influencers 1 Star

Vyvo integrates innovative AI technology to create the world's fastest data acquisition and processing capabilities. Additionally, by leveraging blockchain and digital financial tools, Vyvo pioneers a new model where health and wealth go hand in hand, striving to advance global health management and a better quality of life.

**CHIEN, MIAO CHEN**  
**LIN, FANG JU**

Ambassador Influencers 1 Star

In this era of information explosion, the adoption of Web3 is steadily increasing, and people are becoming more conscious of their health each year. Vyvo seamlessly integrates Web3 and health, allowing us to leverage technology to take control of our health data—and in turn, generate wealth from it.

**LIN, YI WEN**  
Ambassador Influencer 1 Star

Vyvo is a revolution of innovation in technology and speed, while also transforming the way the world accumulates wealth. We are a highly engaged ecosystem, where every connection links us to the wonders of the world. Bound together by the rhythm of our heartbeats, we embrace life, enjoy living, and recognize the value in every individual.

# Vyvo International Convention 2024 Okinawa Ignites the Future!

Imagine a weekend charged with energy, where game-changing announcements, powerful reunions, and the unstoppable momentum of a united community set the stage for the future. That’s exactly what unfolded in stunning Okinawa during the final weekend of November at the Vyvo International Convention. More than a gathering, it was a celebration of success, a showcase of innovation, and a glimpse into the limitless possibilities ahead.

## A Sneak Peek for the Stars | The Future Makers Council

The weekend kicked off with an exclusive strategy session for Vyvo’s top Influencers: the Future Makers Council. Picture the excitement of sitting down with CEO Fabio Galdi, gaining **first-hand insight** into the groundbreaking announcements set to shape Vyvo’s future. This high-impact gathering wasn’t just a meeting—it was where Future Makers helped steer the course ahead.

We proudly welcome the newest Members of the Prestige Club—our newly minted Ambassador Influencers! Their dedication and efforts have earned them VIP access to exclusive perks and a front-row seat to Vyvo’s evolution and progress. For those ready to step up, achieve Ambassador Influencer 1 Star and secure your place at these pivotal sessions with our Founders.

Video & Gallery

## A Night of Glamour and Connection | The Future Makers Gala Dinner

As the sun set over Okinawa, the Future Makers Gala Dinner delivered an evening of elegance, camaraderie, and unforgettable moments. The room was alive with laughter, shared stories, and the clinking of glasses—true reflections of the Vyvo spirit. More than a dinner, this was **a celebration of collective success**, lasting connections, and the power of community.

## Fueling Growth and Innovation | The Premier Workshop

Sunday morning kicked off with high-energy learning at the all-markets Premier Workshop. Fabio, alongside industry visionaries like Antonio Senatore (CTO of VeChain) and Mariana Krym (COO of Vyvo Smart Chain), delivered powerful insights, **fueling the audience with knowledge and innovation**. Think of it as a masterclass in scaling your Vyvo business.

The workshop wrapped up with an engaging quiz, hosted by Antonio Pagano and Rina Chong, adding friendly competition and a dynamic twist to the experience. Congratulations to our top three winners!

Video & Gallery

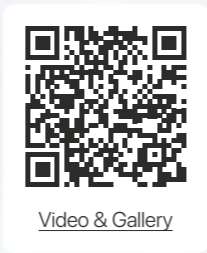

The Grand Stage | The International Convention

The weekend's climax was the International Convention—a **spectacular celebration of Vyvo's vision and future**. Fabio Galdi, Alfonso Cioffi, and Alessandro Senatore took the stage to unveil major announcements that captivated the audience—moments that will define Vyvo's path forward.

Recognition was at the heart of the event. Ambassador Influencers, the driving force of Vyvo's growth, were honored for their achievements. Attendees who had reached new ranks since the last convention took center stage, while those earning Premier Rank and above were celebrated for their extraordinary milestones. Rising Influencers—Vyvo's future leaders—walked across the stage, stepping into the well-earned spotlight.

Okinawa | A Legacy of Unity and Innovation

In every way, the Vyvo International Convention in Okinawa embodied *unity, ambition, and breakthrough innovation*. This weekend was a testament to hard work, vision, and the unstoppable power of the Vyvo community.

Once again, we applaud every Influencer recognized and extend our gratitude to all who made this an event to remember. The momentum continues—see you at the next Vyvo convention!

# The Vyvo SocialFi App

## A Gateway to Digital Influence and Rewards

The Vyvo SocialFi App is a revolutionary platform designed to empower users by seamlessly integrating social engagement, decentralized finance (DeFi), and digital rewards. It offers a user-friendly interface where individuals can **track progress, earn rewards, and leverage their influence** within the Vyvo SocialFi ecosystem.

By combining the principles of Web3, blockchain technology, and AI-driven engagement, the Vyvo SocialFi App serves as a dynamic portal for you to take control of your data, monetize your interactions, and build sustainable income streams.

### Core Features of the Vyvo SocialFi App

The app functions as a **personalized user dashboard**, making it so easy to access essential tools and insights that enhance your participation within the SocialFi ecosystem.

It's literally right in your hands. Key features include:

### Home Dashboard

The home page of the app serves as the central hub where you can access important **updates, earnings, and performance metrics** related to your activities in the SocialFi network.

### Invitation Tool

Vyvo SocialFi thrives on **community building**, and the app makes it easy to share opportunities with others. You can send invites, track responses, and grow your network with just a few taps.

### Awards and Recognition

The app highlights your achievements through a **dedicated awards section**. Whether it's reaching a new milestone in community engagement or earning rewards, Influencers can track their progress and celebrate their accomplishments.

### Rewards

One area you'll like to visit often is the Rewards section, where you can keep track of your earnings and see how your influence turns into real value. You can:

- View your **real-time earnings** from **Connections Rewards, Community Pool USDV, and VSC staking**.
- Redeem **SocialFi rewards** effortlessly.
- Monitor **financial transactions linked to activities** within the ecosystem.

### Real-Time Notifications

The app also keeps you **informed about important updates**, such as:

- New rewards and earnings updates.
- Invitation responses and community growth insights.
- Exclusive announcements and platform updates.

### The Future of Vyvo SocialFi

With a focus on decentralization, community-driven earnings, and privacy, the Vyvo SocialFi App will become an essential tool for you. It makes it so easy to **own your data, maximize your engagement, and unlock new financial opportunities** in a digital economy that rewards participation and influence.

Download the Vyvo SocialFi App as soon as it's available. Scan the QR code below to access a landing page with more information.

# Vyvo EXCELLENCE AWARDS 2024

## Excellence on Full Display

Uniting the Vyvo community across three in-person events—and streaming live to qualified viewers worldwide—the Vyvo Excellence Awards 2024 honored Influencer achievements in multiple categories.

Meet the finalists and discover the drive behind their success.

Scan the QR code for exclusive moments!

vyvo™  
COMMUNITY GROWTH  
AWARD 2024

**WINNER**  
**JEN**  
**CHEAH**

**What gives you confidence that you can continue to find success in your Vyvo business?**

I've had confidence in this business since the start because I know that AI is one of the biggest and most promising trends for the future.

The potential for innovation and improvement in this space keeps me energized and passionate whenever I talk to clients about Vyvo. Seeing how technology can truly enhance lives strengthens my belief in what we do, and that drives me to push forward with even greater determination.

vyvo™  
COMMUNITY GROWTH  
AWARD 2024

**WINNER**  
**SHOGO**  
**TERADA**

**How has Vyvo Technology helped you and your business?**

By using Vyvo Technology devices, I have not only focused on my personal health management but also directed my attention to raising health awareness within the community.

Using these devices to track my steps, heart rate, and sleep quality has helped me become more conscious of my well-being. As I shared this initiative with my family and friends, more and more people began paying attention to exercise and health management.

Moreover, by communicating Vyvo's efforts in financial preparedness, I was able to foster greater understanding and empathy, further contributing to the growth of the community.

Notable Finalists

Tan Choon Yong

Jack Wong &  
Ariel Wong

Notable Finalists

Akemi Hachisu &  
Minoru Hachisu

Eiko Chiba

vyvo™  
COMMUNITY GROWTH  
AWARD 2024

**WINNER**  
**LIU,  
CHEN HSI**

**What inspired your efforts that led to winning this award?**

Over the past two years with Vyvo, I have participated in numerous international events. In June of last year, I even traveled to Koh Samui with my partners to hear Fabio personally share about VAI OS, which reinforced my belief that choosing Vyvo was the right decision.

The passion and dedication of Ambassadors Jacky, Hwa Lih, and Cho, Chun I deeply inspired me. Seventeen years ago, when I entered the health industry, I established the mission of "helping people achieve better health." This original intention has never changed, driving me to remain committed and give my all.

Notable Finalists

Liu, Hsiu Fen

Lin, Ching Ju

vyvo™  
VAI OS CONNECTOR  
AWARD 2024

**WINNER**  
**JEN  
CHEAH**

**How do you learn from challenges?**

Whenever I face a challenge, I take my time to analyze the situation carefully rather than rushing to find a quick fix. I believe in taking baby steps—reviewing what went wrong, learning from it, and making gradual improvements.

Every challenge is an opportunity to grow, and by staying patient and persistent, I can continuously refine my approach and become even better at what I do.

Notable Finalists

Wendy  
Kho Choon Yen

Tan Siew Lin

vyvo™  
VAI OS CONNECTOR  
AWARD 2024

**WINNER**  
**SHOGO  
TERADA**

**What is your most effective method of connecting with new people and sharing Vyvo with them?**

I focus on keeping my explanations simple and easy to understand.

Overcomplicating Vyvo's technology and initiatives can make it difficult for others to grasp. Therefore, I first communicate "What can it do?" and "What are the benefits?" in a concise manner. Once they show interest, I provide more detailed explanations.

Additionally, I build deeper relationships by offering valuable information and being available for discussions, effectively sharing the appeal of Vyvo.

Most importantly, I believe that enjoying the process myself is key. By approaching people naturally and following up thoughtfully with those who showed interest, I am able to connect with even more people.

Notable Finalists

Yoko Sato

Mutsuko Ikeda

vyvo™  
VAI OS CONNECTOR  
AWARD 2024

**WINNER**  
**YOUNG,  
SHAO YUN**

**What gives you confidence that you can continue to find success in your Vyvo business?**

About seven years ago, I started using Vyvo devices to monitor my mother's health. I realized that the world was already entering an aging society, making these tools extremely necessary. I have since shared the concept of contributing personal health data with friends and family.

What moved me the most was when Fabio, in a public forum, said, "Thank you for patiently staying with me until today."

With the goal of improving human health and well-being, and leveraging global AI applications, it is essential to patiently educate our partners and move forward together. This will allow our partners to achieve both mental and physical prosperity. We all believe that the greatest Vyvo endeavor will shine brightly and capture the world's attention.

Notable Finalists

Tsai, Yu Hua &  
Tsai, Ji Wei

Lin, Ching Ju

vyvo™  
SOCIALFI TOOLS  
ADVOCATE AWARD  
2024

**WINNER**  
**JOVIN**  
**TE CHYE LON**

**What is your most effective method of connecting with new people and sharing Vyvo with them?**

In Malaysia, health finance leverages social media platforms like Facebook, Instagram, and TikTok to engage younger audiences through short videos, live streams, and influencer collaborations. High user activity enables precise data analysis for personalized financial health products.

The interactive nature of social media fosters word-of-mouth marketing, strengthening trust and loyalty. I sincerely thank the platform for the recognition and award. It has provided me with invaluable experiences and opportunities, for which I am deeply grateful. Wishing the platform continued success in creating value for more people!

vyvo™

2024

**WINNER**  
**LIU,**  
**CHEN HSI**

**How do you learn from challenges?**

Embracing change is the key to growth. Every career shift comes with its challenges, and I chose to learn and overcome rather than stay in my comfort zone. Two years ago, I joined Vyvo, diving into everything from smartwatch setup to blockchain, NFTs, and Web3. It was a journey full of challenges, but giving up was never an option.

I took detailed notes, practiced repeatedly, and sought guidance from mentors. The support of my team has helped me continuously improve. It is this willingness to change and unwavering persistence that has allowed me to grow through challenges and become a better version of myself.

Notable Finalists

Lin, Ching Ju

Liu, Ho Chung

vyvo™  
MENTOR OF THE YEAR  
AWARD 2024

**WINNER**  
**DATUK**  
**TEY GIAP CHIAN**

**What inspired your efforts that led to winning this award?**

"Team Success = Future!" "Giving before receiving" is my credo. Thank you to my team members for your hard work. Your efforts have led to today's success and have forged our shared, brilliant future!

To receive the 2024 Vyvo Excellence Award for Mentor of the Year is an honor that belongs to each and every one of us on this team.

Notable Finalists

Darren Tey Giap Turn

Jack Wong &  
Ariel Wong

vyvo™  
MENTOR OF THE YEAR  
AWARD 2024

WINNER  
KAORI  
IMAI

**What gives you confidence that you can continue to find success in your Vyvo business?**

Vyvo is revolutionizing the healthcare industry through the power of AI, IoT, and big data, developing cutting-edge wearable devices that enable individuals to take preventive measures before illness occurs and monitor the health of their loved ones. Moreover, these technologies hold the potential to save lives that previously could not be saved.

Additionally, Vyvo leverages its proprietary VSC blockchain and NFT technology to safeguard security and data ownership while offering a groundbreaking reward system that allows users to mine VSC cryptocurrency as compensation.

Above all, I deeply resonate with the philosophy of Fabio Galdi and the Vyvo leadership team, who emphasize the importance of individual rights. This shared vision is the foundation of my confidence in achieving continued success through Vyvo's business.

Notable Finalist

Mutsuko Ikeda

vyvo™  
MENTOR OF THE YEAR  
AWARD 2024

WINNER  
HSU,  
WEI YUN

**What is your most effective method of connecting with new people and sharing Vyvo with them?**

Our project is all about everyday life, making it easy to talk about from any angle. Whether chatting with friends about health, financial planning, or work schedules, it naturally sparks curiosity.

No matter the time or place—taking a taxi, shopping, or running errands—any interaction can turn into a casual conversation, allowing you to effortlessly introduce and share. There's no need to force it; the more natural it feels, the easier it becomes.

Notable Finalists

Lin, Ya Li &  
Lin, Meng Shan

Chien, Miao Chen  
& Lin, Fang Ju

vyvo™

# FASTEST EMERGING INFLUENCER AWARD 2024

Notable Finalists

How have you made a strong start with Vyvo?

**Yang, He Siang**

Discover Vyvo's innovative technology, harness the potential of trends. Grateful for the comprehensive system that enables rapid and complete learning. Understanding Vyvo's strengths and advantages. Fully committed to sharing the market accurately. Achieving milestones and goals, step by step. Heartfelt thanks to Vyvo!

**Sung, Chi Hsun**

At International Convention 2023 I learned about the potential for a side income, and decided to start. At the AI launch event in Koh Samui, I realized that AI can contribute to health-focused communities. This solidified my belief that this could support my plans for a side career after retirement.

**Jen Cheah**

I started strong with Vyvo by understanding its vision, values, and the benefits of its technology for clients. This solid foundation allowed me to confidently share Vyvo's mission, build trust, and foster meaningful connections that drive long-term success.

**Datuk Tey Giap Chian**

I've quickly integrated, proactively seeking and analyzing key information. My rapid understanding allows me to efficiently communicate insights and support team objectives, contributing to early successes.

**Yeat Kheong Chong**

Share Vyvo with your friends every day. Use social platforms for promotion, such as Facebook, TikTok, and Instagram. Vyvo wearables are devices that provide advanced health tools and reward you for your usage and data.

vyvo™

# YOUNGEST EMERGING INFLUENCER AWARD 2024

**WINNER**  
**SUNG,  
MIN JEN**

What is your most effective method of connecting with new people and sharing Vyvo with them?

Why am I, as a young person, interested in Vyvo? Simply put: graduating means unemployment. After hearing about Vyvo through a good friend's family, I shared it with my parents. My dad said, "This seems pretty good, you can explore it with your friend."

With their support, I gave it a shot and won an award! I don't know what the future holds, but I just go with my feelings. I hope to broaden my perspective and share this with other young people like me, showing them what it means to seize opportunities—when you're at the right place at the right time, even pigs can fly!

Notable Finalists

**Ko, Shan Chin**

**Huang, To Yu**

VYVO™  
DIGITAL IMPACT AWARD  
2024

**How do you learn from challenges?**

Producing three videos per week was a constant challenge, especially with business trips and seminars overlapping, leaving me racing against deadlines. However, by leveraging AI technology, I was able to enhance efficiency by using ChatGPT for script reviews and incorporating AI tools into the video production process.

The completed videos were delivered to many people through our leaders' LINE announcements, and I felt a great sense of fulfillment knowing that they provided support to those struggling with negative news.

Having successfully produced nearly 60 videos in 6 months, I will continue to prioritize creativity and consistency, striving to reach even more people and share the value and potential of Vyvo with a broader audience.

What has sparked strong business activity for Vyvo in Taiwan in the last year?

The growth in 2024 was not driven by special events, but by the deep connections within our team. The Taiwan admin team worked tirelessly, always prioritizing Members' needs with empathy, passion, and efficiency.

Heartfelt thanks to Alessandro, Fabio, and the headquarters teams for their unwavering support, which built trust among our Members and led to our shared success. Through the leadership of our Ambassadors, many embraced Vyvo's innovative platform, discovering new possibilities and inspiring belief in our vision. Together, we will continue this journey, creating even brighter achievements ahead.

Empowering Wellness with  
Life Sensing Technology:  
The BioSense Watch and Ring

In today's fast-paced world, managing your health has never been more critical—or easier. Vyvo's cutting-edge **BioSense™ Watch** and **BioSense Ring**, powered by **Life Sensing Technology®**, are redefining how you monitor and optimize your well-being.

Life Sensing Technology is Vyvo's proprietary innovation that enables these devices to collect, analyze, and transform your biodata into real-time, actionable insights. Whether you're navigating air quality concerns or fine-tuning your daily wellness routine, Vyvo empowers you to take control like never before.

What is Life Sensing Technology?

At the core of Vyvo's devices is **Life Sensing Technology**—a revolutionary approach to health monitoring that integrates advanced sensors, intelligent algorithms, and seamless connectivity. Unlike traditional wearables, this technology learns from your biodata, delivering real-time insights that support smarter decisions about your health and lifestyle.

With **Life Sensing Technology**, the **BioSense Watch** and **BioSense Ring** set a new benchmark for precision, reliability, and ease of use in wearable health tech.

**BioSense Watch**

**The New Face of Vyvo Technology**

The BioSense Watch is where sleek design meets ground-breaking functionality. Engineered to be **the world's thinnest smartwatch with a full-function face**, it's also the first of its kind to feature onboard air quality sensors. As the flagship VAI OS companion device, it includes a built-in microphone and speaker, enabling effortless interaction with your Life CoPilot—right from your wrist.

**Key Features Powered by Life Sensing Technology:**

- **Air Quality Monitoring**  
Advanced microsensors analyze indoor and outdoor air quality, updating you every 10 minutes to support informed health decisions.
- **Advanced Health Tracking**  
Proprietary algorithms continuously analyze key biometrics, including heart rate, sleep quality, and stress levels, helping you stay aligned with your wellness goals.

**BioSense Ring**

**The One Ring for Your Wellness Quest**

The BioSense Ring takes health monitoring to a new level, offering continuous tracking of vital health metrics in a lightweight, discreet design. From heart rate and breath rate to energy levels and stress management, this innovative device **fits seamlessly into your lifestyle**.

**Key Features Powered by Life Sensing Technology:**

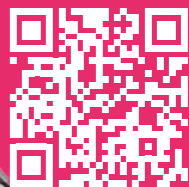

- **Comprehensive Health Metrics**  
Tracks and analyzes core vital signs to help you optimize your wellness.
- **Seamless Integration**  
Syncs effortlessly with the Vyvo Smart App and Heka Pro, ensuring your health data is always at your fingertips.

**Take Charge of Your Health Today**

Vyvo's **BioSense Watch** and **BioSense Ring**, powered by **Life Sensing Technology**, are not just about monitoring your health—they're about empowering you to understand, improve, and thrive.

# At The Center of it All

## AI and Vyvo SocialFi

We’re standing at a turning point in history. AI is becoming part of everything we use, with the promise of making us healthier, more efficient and productive, more informed—simply **more!**

It’s no exaggeration to call artificial intelligence the biggest technological shift of our time. The transformation is already happening, with smartphone manufacturers highlighting AI-powered features in their latest devices.

You may be poised to enjoy the lifestyle and informational benefits of AI, but there’s more. With Vyvo SocialFi, you won’t just experience the future—you **can participate and profit from it!** Why settle for anything less?

The world’s largest companies are racing to integrate AI into their products, competing for market dominance in a

rapidly growing sector. Experts predict that by 2030, AI will contribute \$15.7 trillion to the global economy. Everyone wants to be part of this revolution.

### How Can You Benefit?

That’s where Vyvo SocialFi comes in. Vyvo is harnessing the power of AI to create real-world opportunities and lasting impact with VAI OS, your Life CoPilot.

Built on the Vyvo Smart Chain—Vyvo’s own blockchain infrastructure—VAI OS is defined by:

✓ **Unmatched data privacy**

✓ **Adaptive AI that continuously learns**

✓ **An ultra-realistic experience—like talking to a trusted friend**

And the best part? You can be part of this revolution, shaping the AI-powered future.

### A Market of Millions—And Growing

We anticipate more than one million VAI OS subscribers in the first year alone, as people try the platform, experience all the ways this Life CoPilot can support and guide them, and eagerly subscribe long term.

How much of this growing market would you like to tap into? **This is your opportunity to gain leverage** by expanding Vyvo’s global community of Members and Influencers.

By introducing new individuals to Vyvo who actively participate in our community, you can unlock potential rewards and contribute to a sustainable ecosystem that fosters collective growth.

AI is changing everything, and Vyvo SocialFi enables you to own your share of it. Vyvo SocialFi is the only platform that enables you to take ownership of AI’s value, merging artificial intelligence, blockchain, and wearable technology.

**The future is here**—claim your stake with Vyvo!

## VAI OS and GPU Technology Building the Future of AI

**Antonio Pagano**  
TechItEasy Host

Artificial Intelligence (AI) is no longer a distant future—it's here, reshaping how we live, work, and connect. The global AI market is projected to grow from **\$621 billion in 2024 to \$2.7 trillion by 2032**, and Vyvo is ensuring that you're not just witnessing this transformation—you're part of it. Enter **VAI OS**, Vyvo's revolutionary AI operating system, powered by cutting-edge **GPU technology**.

### VAI OS: The AI You Can Own

VAI OS isn't just another AI platform—it's a user-driven revolution. By integrating GPU Cluster infrastructure, Vyvo empowers individuals to become stakeholders in the AI-powered world. These clusters provide the high-performance computing power necessary for advanced AI applications, delivering both technological and participation-based benefits to users.

### Why GPU Clusters Matter

GPU clusters are the driving force behind AI innovation. These powerful computing systems process massive datasets at lightning speeds, making them essential for real-time personalization, natural language processing, and health data analysis.

Within VAI OS, this infrastructure doesn't just power advanced applications—it gives users a real stake in AI development.

### The Power of Participation

Unlike traditional tech ecosystems—where corporations reap all the rewards—VAI OS is designed to share value with its users. Participants in Vyvo's GPU Cluster program can earn rewards while actively contributing to the expansion of AI infrastructure. This decentralized approach aligns with Vyvo's mission to empower individuals through technology.

Vyvo's GPU-powered VAI OS supports applications across multiple domains, such as:

- **Real-time Health Monitoring**  
Advanced sensors and algorithms provide personalized insights for healthier living.
- **Data Privacy and Control**  
Blockchain technology ensures your data is secure and entirely under your ownership.
- **Adaptive AI**  
Continuous learning from your inputs ensures VAI OS evolves alongside your needs.

### A Glimpse Into the Future

Vyvo's vision for VAI OS extends far beyond today's applications. By giving users ownership and control, Vyvo is building a **decentralized AI ecosystem** that prioritizes transparency, data sovereignty, and community-driven growth. With GPU technology at its core, this future is scalable, efficient, and accessible to all.

### Build the Future with Vyvo

Be part of the AI revolution! Vyvo's **VAI OS** and GPU technology provide a unique opportunity to own, participate in, and benefit from the future of AI. Whether you're looking to enhance your health, secure your data, or explore new digital opportunities, VAI OS is your gateway to a smarter, more inclusive world.
