Community Reward

The power of Residual Income

Your **Connections**
grow your **Community**

Your **Reward** is **simple**

For every

$100

cycle in your **Hubs***

You'll earn

$7 ***USD*****

That's your cycle value

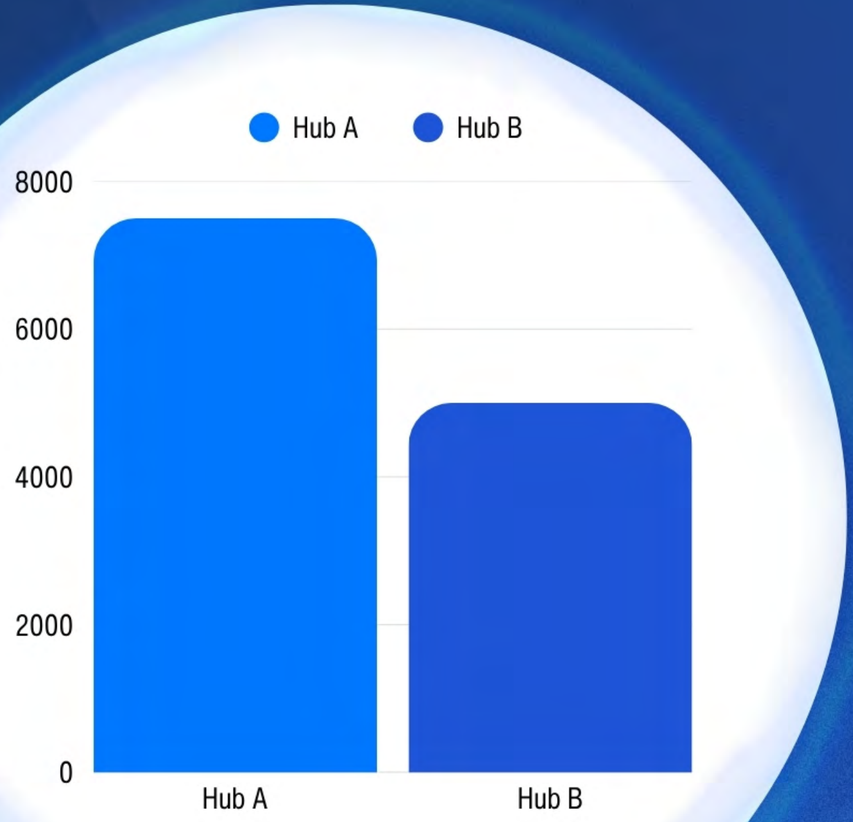
**A $100 cycle occurs when there is $100 in Hub A and $100 in Hub B*

***Paid after epoch closing. Processed within 72 hours*

vyvo

Community Reward

Cycle Example



The **number** of **full cycles** is **based** on the **lower hub divided** by **100**.

So

5,040 ÷ 100 = 50 full cycles

Each full cycle pays **$7** ***USD**

Therefore, your reward is

50 × $7 = $350

Unpaid volume is carried over as **Hub Savings**

Hub A: 7,520 − 5,000 = **2,520 HV**
Hub B: 5,040 − 5,000 = **40 HV**

**Paid after epoch closing. Processed within 72 hours*

Terms

Active
You are considered Active if you own a Hub Console Pro.

Connection
A Connection is a Member linked to your Hub Console.

Connections Placement
Use your app's invitation codes to add new connections. Each code assigns them to either Hub A or Hub B, depending on where you choose to place them when sharing.

Community Hub Savings
Any excess unpaid volume remaining after the Community reward calculation will be carried over to the next Epoch as Hub Savings. This amount may apply to either one Hub or both. Hub Savings will continue to accumulate without limitation, provided that the Hub Console PRO is active.

Community Matched Cycle (Cycle)
A complete matched unit of 100 Hub Volume on each Hub within the same Epoch. Only complete matched Cycles on both Hubs are eligible for the calculation of the Community Reward. Any Hub Volume that does not form a complete matched Cycle on both Hubs for that Epoch will be recorded as Community Hub Volume Savings.

Cycle Value
The amount paid per Cycle for the Community Reward.
Each qualified Cycle pays $7 USD, applied equally to all active Members.

Epoch
An Epoch refers to a specific period, typically lasting seven days, in which the community's activity generates all rewards. Please note that the Company retains the right to alter the duration of any Epoch.

Epoch Cycle Closing
An epoch typically spans a seven-day period and resets every Tuesday at 00:00 AM SGT.

- Los Angeles (PST, UTC-8) – Monday at 8:00 AM
- Miami (EST, UTC-5) – Monday at 11:00 AM
- Rome (CET, UTC+1) – Monday at 5:00 PM
- Moscow (MSK, UTC+3) – Monday at 7:00 PM
- Bangkok (ICT, UTC+7) – Monday at 11:00 PM
- Taipei (CST, UTC+8) – Tuesday at 12:00 AM
- Tokyo (JST, UTC+9) – Tuesday at 1:00 AM
- Singapore (SGT, UTC+8) – Tuesday at 12:00 AM. *(base reference time)*

Note: *Time zones may shift due to daylight saving time.*
The company also reserves the right to modify the closing time at its discretion.

Ethical Positioning

It is forbidden to attempt to 'game' the system to generate more rewards. Any Influencer attempting to do so may, at the Company's sole discretion, have their account terminated. The Company reserves the right to deduct this amount from an Influencer's rewards or to take action to seek monetary damages up to two times the fraudulent reward paid plus any legal costs.

Hub Console

A Hub Console is a digital space in the Vyvo SocialFi App that contains a user's connections and the HV.

Hub Volume

All purchases made within your Hubs during an epoch generate Hub volume (HV).

Minimum Eligible Matched Cycle Volume

To earn the Community Reward, an Influencer must complete at least one matched Cycle of 100 Hub Volume on each Hub within the same Epoch. If a full matched Cycle is not achieved, the volumes will be carried over as Hub Saving and considered in the calculation for the next Epoch.

Personal Cap

The maximum USDV reward that an Influencer can earn as Community Reward is 250,000 USDV per Epoch.

Reward Flushes

If an Influencer does not renew their Hub Console PRO within the 30-day grace period following its expiration, they will lose Active status. As a result, all Rewards and volumes accumulated during that Epoch will not be counted. In addition, the Company reserves the right to flush the current Hub Savings.

Referrer or Connector

A Referrer (or Connector) is a Member who owns a Hub Console and refers another Member or Customer into their Hubs, who then becomes their Connection.

Rewards Calculation

Some rewards are computed instantly and become available within a few seconds, while others are calculated on a weekly basis, following the Epochs. The results of these calculations are finalized, and the corresponding amounts become accessible in your app the day after the Epoch closes.

Total Rewards Cap*

The maximum reward amount in a single Epoch is 35% of the total sales generated within the Vyvo SocialFi Rewards Program during the same Epoch. If the amount exceeds this limit, a CAP will be applied by multiplying the earnings by the 'CAP share value.'

Fair Policy

The Fair Policy is triggered when the following conditions are met:

1. The new volumes generated in the Power Hub represent less than 20% of its own savings volume.
2. The new volumes generated in the Power Hub are less than 20% of the new volumes generated in the other Hub.

**Any amount in excess will be deducted proportionately between all Influencers.*
