

RESTRUCTURE ANNOUNCEMENT

July, 2026

Message from the CEO

Dear Valued Customers, Partners, and Friends,

After careful consideration and strategic planning, I am announcing a comprehensive restructuring of our organization.

This is not a retreat. It is a refocus.

For years, **Vyvo Group** has pursued ambitious goals across multiple domains. We have built, experimented, learned, and grown.

Through that journey, one truth has become undeniable: our most impactful work deserves to stand on its own, unburdened by legacy structures.

THIS RESTRUCTURING ACCOMPLISHES THREE THINGS

- 01** Closes operations that no longer align with our core mission — including Vyvo Smart Chain, VSC Coin, and the inPersona Data-NFT business, which will be wound down through a structured process.
- 02** Spins off our SocialFi community, AI technology, and accessories into a newly formed independent company, giving it the autonomy it deserves.
- 03** Focuses Vyvo Group's business on its GPU management infrastructure and related products and projects.

We are committed to being transparent about what this means for our customers, distributors, partners, and community members. In the sections below, you will find full details on every aspect of this restructuring.

Thank you for your trust, your partnership, and your belief in what we are building.

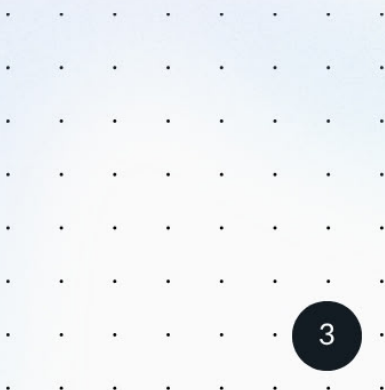

With gratitude,

A handwritten signature in blue ink that reads "Fabio Galdi". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

CEO, Vyvo Group

Discontinued operations

As part of this restructuring, **Vyvo Group** is discontinuing certain operations that no longer serve our strategic direction. These decisions were not made lightly, and we are committed to ensuring an orderly wind-down.

What Is Ending

- **Vyvo Smart Chain** — The blockchain infrastructure and associated services will be discontinued.
- **VSC Coin** — The VSC cryptocurrency token will be delisted and discontinued.
- **inPersona Data-NFT** — The inPersona Data-NFT business model and product will be discontinued and not carried over to any new entity.

Why This Decision

Our mission has always been to build technology that meaningfully improves people's lives. Over time, certain operations drifted from that core purpose. Continuing to fund them dilutes resources, talent, and attention from the work that truly matters.

What Happens Next

- All affected customers will receive direct communication regarding accounts, subscriptions, and transitions.
- Support commitments will be honored through a defined lifecycle.

Spin-off to a new independent company

Certain **Vyvo Group** business lines and technology assets will be transferred to a newly formed independent company headquartered in Miami, USA. This is not a division, subsidiary, or new chapter of Vyvo Group — it is a completely separate and independent entity.

About the New Company

A newly formed independent company headquartered in Miami, USA will receive the spin-off of select **Vyvo Group** business lines and technology assets.

This entity:

- Will operate as an autonomous company with its own leadership, brand identity, and strategic direction.
- Is designed to give the business the agility and focus needed to compete and grow.
- Will have its name, branding, and details announced separately.

What Is Being Transferred

- **Vyvo SocialFi Activities** — The entire SocialFi community structure, operations, and community engagement programs.
- **AI Technology** — Including VAIOS (the AI operating system) and LifeCopilot (AI personal assistant technology), which will evolve into a new sensory AI platform (name to be announced separately).
- **The Orb** — The Orb hardware device and associated ecosystem.
- **Biosense Wearables** — The Biosense wearable technology product line and associated services.
- **SocialFi Community** — The existing SocialFi community structure, members, and engagement programs.

What Changes

- The new company is a separate legal entity operating independently from Vyvo Group.
- It will have independent leadership with its own executive team and governance.
- It will maintain a dedicated brand identity, messaging, and customer relationships.
- Existing customers, partners, and community members will experience continuity of service.

What Stays the Same

- The quality and integrity of products and services.
- The relationships built with customers and partners.
- The shared values and culture that define this organization.

**This new company is not being abandoned
— it is being empowered.**

A new Sensory AI platform

We are proud to introduce a new sensory AI platform —
the culmination of Vyvo Group's core mission in AI-
driven quality-of-life technology.

The name of this platform will be announced separately.

What Is the Platform?

A Sensory AI platform designed to improve quality of life across five fundamental pillars:

- **Health & Wellness** — Personalized health insights, wellness tracking, and longevity support powered by continuous AI learning.
- **Wealth & Prosperity** — Financial awareness, opportunity identification, and prosperity tools tailored to your life.
- **Business & Productivity** — AI-driven productivity systems that adapt to how you work.
- **Personal Development** — Growth tools, learning pathways, and self-improvement resources guided by AI that understands you.
- **Social Life & Family** — Connection tools, relationship insights, and community features that strengthen what matters most.

The Difference

This is not another dashboard or app. It is a sensory intelligence platform — technology that perceives, learns, and adapts to your life in real time. Through layered sensing, continuous AI learning, and personalized insights, it becomes more valuable the more you use it.

The Technology

- **Layered Sensing**
Integration with health platforms, wearable devices, and personal data sources for comprehensive life awareness.
- **Liquid Neural Networks**
Continuous per-user learning that adapts and improves over time, creating a deeply personalized experience.
- **Fluid Pod Architecture**
Encrypted, per-user runtime environments prioritizing privacy, security, and personalization.

This is technology designed not to replace human judgment, but to enhance it.

“Sense Your Life.”

That is not just a tagline. It is a promise.

What this means for customers

If You Are a Vyvo Group Customer

- Existing services continue uninterrupted during the transition.
- Our customer support team remains fully available.
- Clear migration paths will be provided where applicable.

If You Are a Customer of the Spun-Off Business Lines

- It will be business as usual — the new independent company will continue to serve you directly.
- Products, services, and support relationships remain unchanged.
- New contact information will be communicated separately.
- As an independent company, you can expect accelerated product development and service improvements.

If You Are Interested in the New Sensory AI Platform

- Early access will begin rolling out to early adopters and community members in phases.
- This platform is built on the belief that technology should serve people.
- We are building a community of users who share this vision.
- More information will be available when the platform name and details are announced.

What this means for distributors & partners

Distributors

- **Distributors associated with the spun-off business lines**
Your relationship continues with the new independent company, which will communicate directly regarding updates.
- **Distributors associated with discontinued operations**
You will receive direct communication regarding transition options and wind-down procedures.
- **New sensory AI platform**
The platform will establish its own distributor and partner programs.
Watch for upcoming announcements.

Partners

- **Technology partners**
Existing partnerships will be reviewed and transitioned to the relevant entity.
- **Strategic partners**
You will be contacted individually to discuss the evolution of your partnership under the new structure.
- **New opportunities**
This restructuring creates new partnership opportunities around the sensory AI platform and the new independent company's growth.

Our Commitment

- Transparent communication at every stage.
- Honoring all existing contractual obligations.
- Supporting transitions with resources and assistance.

SocialFi community migration

The Vyvo SocialFi community is at the heart of what we've built together. As part of this restructuring, the community will transition to the new independent company.

Community members will be guided through the migration process.

Existing community structures, relationships, and programs will be preserved.

The new independent company is fully committed to honoring all community commitments.

Migration support will be provided to ensure a smooth transition.

The community is not being left behind
— it is being carried forward into a new chapter.

Continuing Vyvo Group operations

Following the restructuring, Vyvo Group will continue to operate, focused exclusively on its core infrastructure and generative AI business.

GPU Cluster — Vyvo Group's GPU computing cluster infrastructure will continue operations.

Forge — The Forge generative AI platform at forge.vyvo.com will continue as Vyvo Group's primary product offering.

Vyvo Group remains committed to innovation in GPU computing and generative AI.

Frequently asked questions

1. Why is Vyvo Group restructuring?

Vyvo Group is restructuring to better align operations with our core mission. By discontinuing non-core operations, spinning off certain business lines into a new independent company, and launching a new sensory AI platform, we can direct all resources toward the work that matters most.

2. Will my existing services be affected?

No. All existing services and subscriptions will continue uninterrupted during the transition. Where changes do apply, you will receive direct communication with clear details and migration support.

3. What is the new independent company?

A newly formed independent company headquartered in Miami, USA, receiving the spin-off of Vyvo SocialFi activities, AI technologies, The Orb, Biosense wearables, and the SocialFi community. It operates completely independently from Vyvo Group. The name and details will be announced separately..

4. What is the new sensory AI platform?

A Sensory AI platform designed to improve quality of life across five pillars: Health & Wellness, Wealth & Prosperity, Business & Productivity, Personal Development, and Social Life & Family. It uses layered sensing, continuous AI learning, and personalized insights. The platform name will be announced separately.

When will the new sensory AI platform be available?

The platform will begin rolling out in phases, starting with early access for community members. Additional timing details will be announced as they become available.

6. What should distributors and partners do?

You will receive direct communication regarding how the restructuring affects your relationship. All existing agreements and commitments remain in full effect.

7. How can I stay informed?

Regular updates will be provided through our website, email communications, and social media channels. Customers, distributors, and partners will receive direct communication as it becomes relevant to them..

8. Who do I contact if I have questions?

Your dedicated account manager or support representative remains your first point of contact for account-specific questions. For general inquiries, reach out through our usual support channels.

What's coming next

The name, branding, and details of the new independent company will be announced separately.

Watch for announcements across all channels.

The name of the new sensory AI platform will be revealed at launch.

We believe the reveal will be worth the wait.

Looking forward

This **restructuring** is not an **ending** — it is a **beginning**.

By closing what no longer serves us, empowering a new independent company to stand on its own, and launching a new sensory AI platform focused on our core mission, we are building a future that is sharper, stronger, and more purposeful.

Thank you for your trust, your partnership, and your belief in what we are building.

“Sense Your Life.”

— The Vyvo Group Team
