What do current AI Models think about the potential of the VAI OS platform and the Vyvo Life CoPilot?

● ChatGPT

The **VAI OS** platform aims to create a **decentralized AI operating system** that focuses on managing **health, wellness, and lifestyle**. Being the first of its kind, it emphasizes user control over **data** and **privacy**, along with personalized health insights and recommendations from the **Vyvo AI Life CoPilot**.

VAI OS will have implications across all sectors, potentially reshaping how we develop, deploy, and benefit from AI technologies. In other words, the significance would be profound.

Overall, the first **decentralized AI operating systems**—like the one **Vyvo AI** might be pursuing—could represent a complete paradigm shift.

● Elon Musk's GROK 2

Vyvo AI Life CoPilot could challenge existing **AI assistants** by setting a new benchmark for **privacy, personalization, and user control**. It might encourage a competitive shift towards more secure, user-empowering AI solutions.

The **VAI OS** platform aims to provide deep, personalized health insights and management tools, which could be revolutionary for personal health monitoring.

In summary, **Vyvo AI Life CoPilot** could be pivotal in redefining the relationship between users and AI, emphasizing user agency, privacy, and a highly personalized interaction model.

Community Pool USDV

You and your connections are part of a bigger team that is your **COMMUNITY!**

Every time a product is purchased inside your community, it generates rewards that benefit the entire Group.

This rewards is going to become a **big deal** considering the **Vyvo AI subscription model**:
The **LARGER** your community,
the **MORE** residual income it will generate!

You can Earn **3.5%**
from all sales across your
entire community*

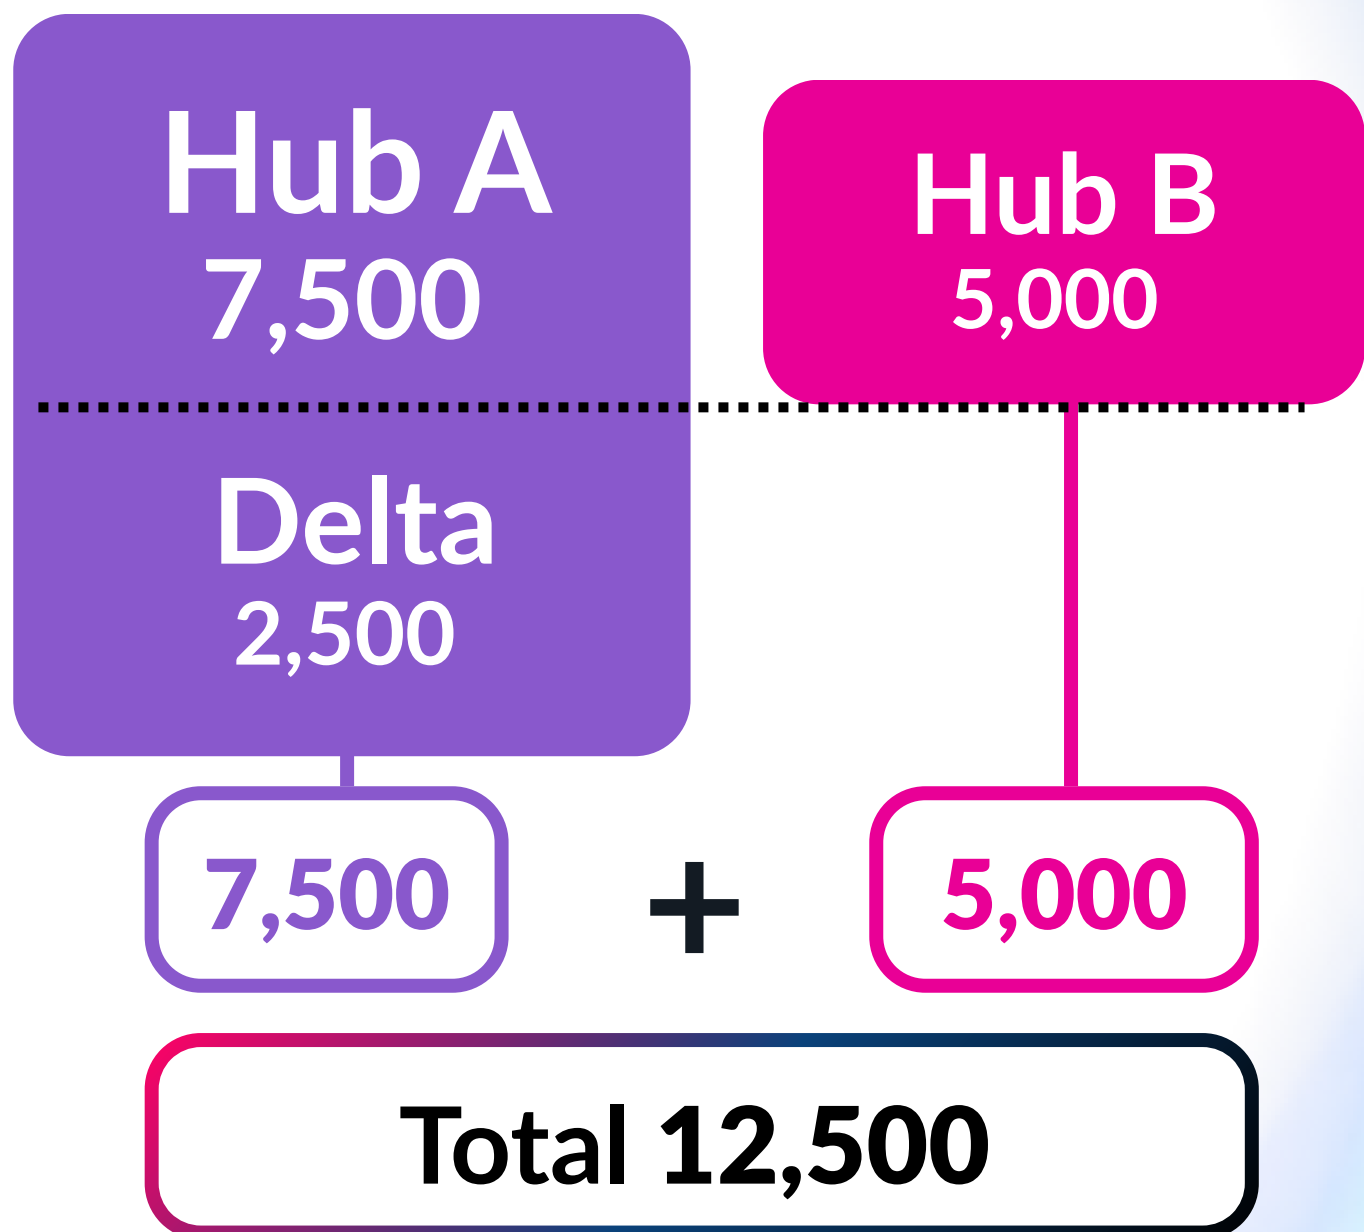

The power
of residual
income

**This statement refers to balanced Hubs, and 3.5% is based on a share value of \$1. For more details, please refer to the next slide.*

Community Pool Reward

Calculation example

$Total = Hub A + Hub B = 12,500$
 $Delta = Abs |HubA - HubB| = 2,500$
 $Payable = Total - Delta = 10,000$

Your Reward is

$3.5\% \times Payable \times ShareValue^*$

**The Share Value is announced by the company at the end of each Epoch. It represents the division of the global bonus pool allocated for this reward by the total number of Member shares. The final value is typically close to 1, ranging between 0.8 and 1.2*

Lifestyle Rewards

Every year you can qualify for travel incentives and global recognition events

Enjoy exclusive experiences in breathtaking destinations around the world.

More than just travel—it's meaningful time with people who share your vision.
