Being the first of its kind, it emphasizes user control over **data** and **privacy**, along with personalized health insights and recommendations from the **Vyvo AI Life CoPilot**.

VAI OS will have implications across all sectors, potentially reshaping how we develop, deploy, and benefit from AI technologies. In other words, the significance would be profound.

Overall, the first **decentralized AI operating systems**—like the one **Vyvo AI** might be pursuing—could represent a complete paradigm shift.

● Elon Musk's GROK 2

The **LARGER your community**, the **MORE residual income it will generate!**

You can **Earn** **3.5%** from all sales across your entire community*
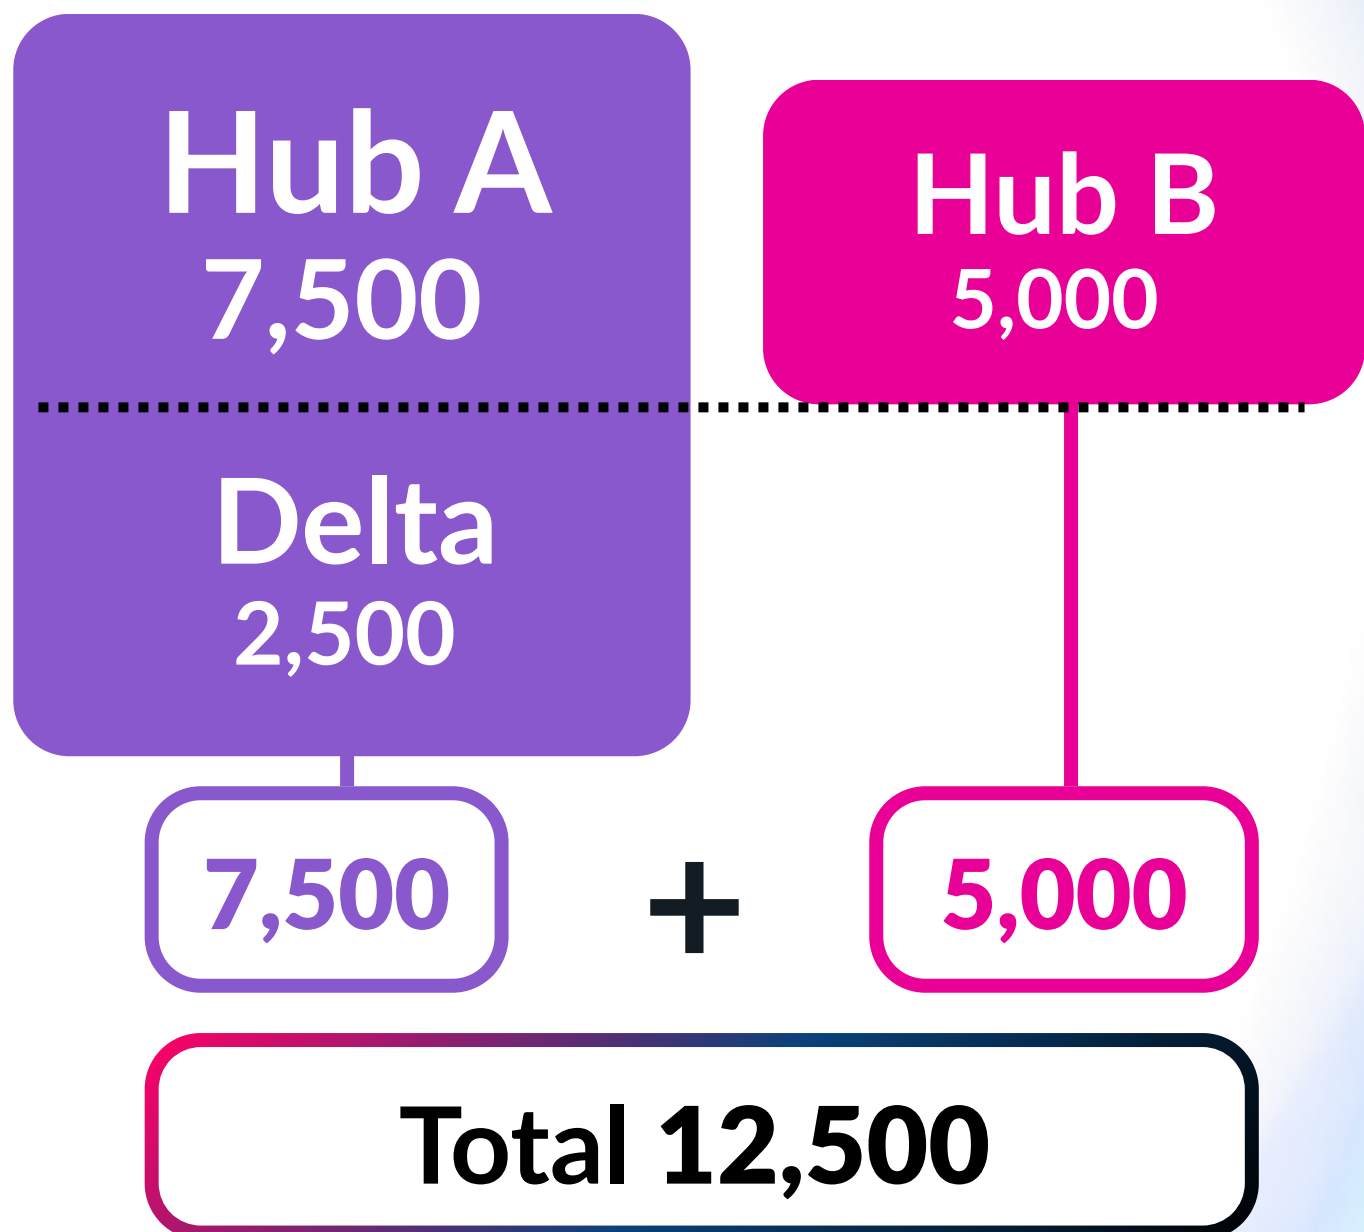

The power of residual income

This statement refers to balanced Hubs, and 3.5% is based on a share value of $1. For more details, please refer to the next slide.

Community Pool Reward

Calculation example

Hub A 7,500
Hub B 5,000
Delta 2,500

Delta = Abs |HubA - HubB| = 2,500
Payable = Total - Delta = 10,000

Your Reward is

3.5%x Payable x ShareValue*

*The **Share Value** is announced by the company at the end of each Epoch. It represents the division of the global bonus pool allocated for this reward by the total number of Member shares. The final value is typically close to 1, ranging between 0.8 and 1.2*
