# A New Chapter for Vyvo

Evolving to Scale

Opening to Web3

We're entering the next chapter of growth

Transitioning from private access to public scale

Clarifying the roles of SocialFi and VSC for the future

What we're announcing is not a change—it's evolution

# Preparing for Web3 Expansion of Blockchain-Native Products

Transitioning from private access to public scale

Blockchain-native products are now built to operate under Web3 principles

Public access begins under a structured, scalable model following Web3 principles

SocialFi leads business growth

VSC powers Web3 expansion

# Strategic Shifts to Support Business Growth

Clearer, more sustainable structure for future growth

Token-based incentives are ending

GPU Clusters continue as tools to support infrastructure

VAI will soon be **available** as a payment method for VAI OS subscriptions

up to  
**25%**

# VSC Powers Blockchain Operations and Web3 Expansion

VSC handles technical operations  
Clusters, staking, VAI token

Decentralized structure, transparency, public access

Operates **independently** from **SocialFi**  
to manage blockchain growth

# Sales & Product Activation

Vyvo SocialFi is focused on

VAI OS Subscriptions

Vyvo Wearables

GPU Clusters

# Winning is the Beginning

Our success in the Red Dot Award  
Product Design 2025

# Introducing VAI OS
