VISIONARY WITH SPRING 2024 Issue #1

LETTER FROM OUR CEO | EMPOWER YOUR HEALTH | VYVO SOCIALFI UNITING TECHNOLOGY AND COMMUNITY FOR A BRIGHTER FUTURE | TECH IT EASY DEMYSTIFYING TECH | TOP INFLUENCERS ACROSS ALL MARKETS | LOOKING BACK GRAND GALA AND THE 2023 INTERNATIONAL CONVENTION

RECLAIMING YOUR BIGGITAL LIFE

Dear Vyvo Community,

In this issue one of vLife Magazine, I am excited to share insights into the transformative journey Vyvo is embarking on.

Our brand is evolving to streamline and elevate our communication. Vyvo stands as our unified brand, embodying our mission of technological innovation and community empowerment. Furthermore, we are thrilled to announce the introduction of Vyvo SocialFi, which will serve as the comprehensive umbrella for everything related to our community and business opportunities. Vyvo SocialFi will become the new home for the Vyvo Generation, encapsulating our vision for a connected and empowered community.

Our workshops in Japan and in Taiwan are a testament to our commitment to adapt, thrive, and learn together, representing a new approach to collective growth and success.

As we transition under the Vyvo brand, with the enhanced support of Vyvo SocialFi, our focus remains steadfast on delivering excellence and innovation across all platforms and products. This strategic consolidation aims to improve clarity and cohesion within our community and the broader market.

Finally, I want to express my gratitude for your continuous support and dedication to our shared vision! Throughout our journey together, we have witnessed many remarkable events, but the one from the latest months is truly unbelievable. In fact, we have uncovered a worldwide giant that is now aware of us and, frankly, intimidated by the innovative strides we are making. This recognition not only flatters us but also reinforces our pride in leading the charge towards a monumental shift in the digital epoch from Web 2.0 to Web3. Our achievements thus far are just the beginning. With your continued support, there's no doubt that we will realize our ambitious objectives.

Let's collectively embrace this new chapter of growth and learning.

Warmest regards,

Alessandro Senatore

Alessandro Senatore CEO, Vyvo SocialFi

Vyvo SocialFi Uniting Technology and Community for a Brighter Future

Wearable devices, blockchain, mining, NFTs, biodata, SocialHub Consoles ... There's a lot happening at Vyvo, a lot of concepts to be familiar with. The good news is, the Vyvo SocialFi program explains with clarity and detail all the ways you can earn from your connections, mining, transactions, and more.

SocialFi is more than a program; it's a paradigm shift that redefines engagement with technology. It transitions you from a mere customer to an Influencer, and from a passive user to a proactive Future Maker. It embodies the essence of Vyvo's mission: to harness the collective power of individual contributions, propelling our global community toward a future where everyone is rewarded for their participation and influence.

You're here to inspire, empower, and lead your audience, and SocialFi ensures you are rewarded for doing so in five distinct ways: **Connection \$USDV:** Earn 10% from any purchase made by your Connections.

Connection \$VSC: Receive up to 25% of the total VSC produced by the Connections in your Hubs.

Community Pool \$USDV: The entire community generates Hub Volumes that correspond to 100% of every product purchase and 50% of the NFT Stake purchase. With this reward, your Hubs' epoch performance determines your share of the global Sharing Pool USDV.

Community Pool OdeePay: Whenever Members use a VyvoPay or OdeePay debit card, a small percentage is returned to the Community Hubs in the form of Hub Volume. Your contribution entitles you to a share of the global cash back in this pool.

Community Pool \$VSC: A share of the daily earnings derived from global data mining activities, based on your Hubs' performance.

But that's just the financial rewards. You can also be rewarded with Community Awards – our recognition ranks – the Grand Gala, Lifestyle Holiday, and Prestige Club.

To review all the exciting elements of SocialFi, scan the QR code.

Launching a New Chapter Welcome to vLife Magazine Issue 1!

Dear Vyvo Generation Community,

As we unveil the much-anticipated Issue 1 of vLife Magazine, we step into a realm where each page celebrates **you — the heartbeat of Vyvo**. This edition is a testament to the vibrant dynamism and unity of our community, offering more than just insights; it's a reflection of our collective journey and achievements.

vLife Magazine is where your inspiring stories, innovative ideas, and notable accomplishments come to life, emphasizing the significant impact of the Vyvo Generation across the globe. We delve into the essence of data decentralization, the symbiosis of wellness and financial rewards, and the transformative power of personal data insights. Through these narratives, we aim to bolster your confidence, foster a deeper sense of community, and inspire personal empowerment.

Our featured Ambassadors and Influencers stand as proof of what's possible within our ecosystem — each story serves as a beacon of success, demonstrating that the path to achievement is not a dream, but a tangible reality for all of us as Future Makers.

Issue 1 is not merely a publication; it's a dialogue, a celebration, and a bridge connecting us all. It delves deep into the core of what Vyvo stands for: innovation, unity, and a forward-thinking spirit. I view this magazine as a vital platform for sharing, learning, and growing together.

I extend my heartfelt thanks to every one of you for your enthusiasm, support, and active participation. Along with our incredible and dedicated corporate team, together, we've created more than a magazine; we've marked a milestone in our shared narrative.

So, immerse yourself in Issue 1, see your reflection in its stories, and embrace the practices that resonate with you. Let's continue this remarkable journey together, with the knowledge that the best is yet to come.

With warmest regards,

Kina Chong

Rina Chong Vice President of Global Marketing, Vyvo SocialFi

Celebrating Our Top Influencers in Each Market

KAZUYA MARUYAMA MICHIHIRO KATAOKA

Ambassador Influencers 5 Star

SETTING THE PACE JAPAN'S TOP INFLUENCERS LEAD GLOBALLY

What originally inspired you to get involved with our community?

We became involved in this community because of its promising vision, unique business strategy, attractive market size and its timing, and the overall passion of founder Fabio Galdi.

Walk us through your journey and most rewarding milestones so far.

The path we have taken so far has actually not been smooth. We have been involved with Vyvo even before the blockchain technology became the foundation, and we have dedicated ourselves with all of our community members since 2017 to overcome many challenges we faced. We've made it this far without giving up, thanks to the company. Vyvo always makes its vision come true, driving us to move forward and beyond. We must also give thanks as well to all the community members who have believed in us and in the vision of the founders of the company who have come alongside, for which we feel truly

grateful. What we find rewarding is whenever Fabio and the company introduce new technologies, new visions, and seeing people become part of the community as this vision and information spreads. When we see members become happier — smiling more, healthier than before — it is a rewarding experience for us.

What impact does our community rewards have on your initial level of interest?

We thought it was a very big opportunity. We feel that the system in which our wellness data can be turned into \$VSC and community Members can earn rewards from their own data will become an essential part of the world we live in today.

We are convinced that the reward system in which Members can receive long-term rewards from HealthFi, in addition to the immediate rewards from SocialFi, is an opportunity to enrich the lives of so many people.

Share with our readers your excitement and thoughts about the data mining opportunity within our community.

With previous businesses, even in the same system, some people were rewarded while others were not. However in this business, those who participate in the community will be rewarded for their own data, regardless of whether they tell others or not. Data mining is something that has rarely been considered in business structure until now. This is a wonderful and very unique system that allows every one of us in the community to enrich ourselves by taking care of our own health, and the fact that we were able to join this business before it became a world-wide phenomenon makes us feel that it has the high potential to be a successful business.

What motivates you each day to keep achieving at such a high level?

It is about believing in yourself and believing in the future as you move forward. At the core, this means believing in the vision, and putting trust in the Executives and Members of the community.

How has being a part of the Vyvo community enriched both your personal and professional life?

Joining the community has changed both our personal and business lives. Before Vyvo, we lived time-constrained lives with jobs that left us with very little leisure time. But by being part of this community and making the effort to expand our community, we have been able to reap rewards and have more free time than ever before.

What are some keys to the growth and success you've achieved?

Growth and success are about trusting what you believe in and continuing to do it without giving up, no matter what. We feel that if you don't put full trust in yourself, you can never grow and succeed. There are many opportunities for growth and success out there in this world, and we were able to grow and succeed because we had the belief. We were able to achieve even greater success because we found this company and community, which is so needed in the world of the future.

Blockchain technology and this way of turning health data into rewards is what the world will need in the future. We are grateful that we could get involved with this project when we did.

What advice would you give to someone just starting, particularly about maximizing rewards?

Actively participating in the community is the key, and understanding how the rewards system works is essential. It is important to set your own goals and spread the word every day, in every opportunity, believing that you will achieve this goal. Never give up!

What about our community makes you most excited for the future?

What excites us the most about the future is that we envision our community spreading around the globe, using blockchain technology and wellness data to enable people to enjoy richer, healthier lives. Furthermore, we are excited to further evolve with the company's 2024 vision.

Is there anything else you would like our readers to know?

We are all part of a community that can change the world. Even if you don't understand it now, we believe that everyone will eventually find out it's true. Now is the time to start. Let's move forward into the future together!

Please note: The ranks featured in this magazine are updated as of April 1st, 2024

JOHNNY CHIA SAMANTHER NG Ambassador Influencers 5 Star

TOP INFLUENCERS

health and contribute to advancements in healthcare. Through the platform's innovative approach to health data management and the incentivization provided by the HealthFi program, the community has experienced a profound transformation.

MALAYSIA

How has being a part of this community enriched both your personal and professional life?

Being part of a community focused on health and wellness has heightened my awareness of my own well-being. It has inspired me to adopt healthier habits, such as regular exercise, mindful eating, and better sleep hygiene. Engaging with like-minded individuals within the Vyvo community has also fostered a sense of belonging and camaraderie. Sharing experiences, insights, and challenges with others who are on similar health journeys has been immensely rewarding and has helped me feel connected to something larger than myself.

What tips about earning rewards can you offer to newcomers?

Take advantage of the educational resources available within the Vyvo platform to learn more about health, wellness, and the benefits of data-driven approaches to healthcare. The more informed you are, the better equipped you'll be to make meaningful contributions and earn rewards.

Is there anything else you would like our readers to know?

Your participation in the Vyvo community has the power to make a real difference – not only in your own life but also in the lives of others. By sharing your health data, engaging with the platform, and contributing to research initiatives, you're contributing to meaningful advancements in healthcare and shaping the future of wellness for generations to come.

What originally inspired you to get involved with our community?

Health data management, especially when combined with blockchain technology, has the potential to revolutionize healthcare by improving data security, transparency, and accessibility while also empowering individuals to take control of their health especially towards individual personalized food supplements.

What impact did the data mining opportunity in our community have on your decision to get involved?

Overall, the combination of data mining opportunities, blockchain technology, and personalized supplements has the potential to revolutionize healthcare by making it more secure, transparent, accessible, and personalized, ultimately improving individuals' health and well-being.

Share your story and the biggest moments along the way.

Vyvo has truly changed the way I approach my health. Through the HealthFiprogram, I found myself more motivated than ever to track my health metrics and contribute to valuable research initiatives. The rewards I earned through HealthFi served as a constant reminder of the importance of prioritizing my health.

How has the community, and its rewards, impacted you?

The Vyvo community has become a vibrant ecosystem of individuals united by a common goal: to take control of their

SUSUMU IGARASHI Ambassador Influencer 4 Star

TOP INFLUENCER

What originally inspired you to get involved with our community?

When my son was hospitalised after a heart attack, he had a bad heart condition and was wearing a pacemaker. Then at that time, I was told Vyvo Watch can measure ECGs so I was very attracted and decided to get involved.

What impact did the data mining opportunity in our community have on your decision to get involved?

I used to live in Vietnam, the economy was poor and many people had never been to a hospital. It was then I learned about social selling. I am convinced that inPersona is the ultimate business scheme. I feel that health, economy and social contribution are our mission and I believe it's Fabio's wish as well.

Share your story and the biggest moments along the way.

I joined in January 2017. Things were very difficult at the time, but no matter what happened I never gave up and kept trying. I travelled around the country and was mentally and physically exhausted. Then I met an elderly lady. She told me that she was able to go to the hospital before it's too late because she had checked her physical condition regularly with the watch and survived from subarachnoid haemorrhage after all. At that moment, I realised how great this business was and decided to keep doing it until I succeeded.

How has the community, and its rewards, impacted you?

I have been deeply involved in this business and diligently and sincerely working for 7 years now. I believe this is a wonderful system that has rewarded my hard work and dedication. I have six ambassadors in my group now, including myself, and we have built the largest organisation in Japan. So the community rewards are a very big advantage for us all. I am also very grateful to all the leaders who have worked hard together.

How has being a part of this community enriched both your personal and professional life?

As a member of the community, I have been blessed with wonderful community members through the Vyvo business. I have never experienced such richness when we worked together to overcome difficult times. I have also been able to build amazing community members who have both of my professional and private relationships and friendships. We, as community members, build a healthy and economical social structure by expanding SocialFi and HealthFi. I am grateful to be a part of this community.

What tips about earning rewards can you offer to newcomers?

I hope that new members will expand the circle of the ultimate basic income and aim to contribute to health, economy, and society on their own, without relying on the government or government officials.

What about our community makes you most excited for the future?

As the world is entering into Web3, both corporate and asset building are changing dramatically. In the coming era, how much 'community' we have is the key and it makes me most excited about the future because such businesses will survive and I am already part of this wonderful community.

Is there anything else you would like our readers to know?

The inPersona business model is the ultimate and ideal social business that will save the world. By expanding the inPersona business throughout the world, the continuous bio data provided by the equipped device will change the future and the medical and health care of our children and grandchildren's generation as well as bring impact to those suffering from intractable diseases. Business that creates an equal society and health care without disparities on a global scale, inPersona has it all. My wish is to create a sustainable society, health and wellness, economic growth and social contribution.

HIROTARO TAKAHASHI Ambassador Influencer 4 Star

LEADING INFLUENCER

What led you to join the Vyvo community and what rewards have you enjoyed thus far?

About two years before I joined the Vyvo community in September 2018, a pharmacist I trusted gave me a video. By watching this video, which was about Vyvo, I felt the potential of this company, but due to the timing of my business at the time, I decided to wait and see. When I was asked to join again later, I was made aware of the potential of health big data beyond just wearables, and I intuitively felt that this would be a business like never before, and decided to join the community. In the past five years since I joined, the community has become more than 20,000 members worldwide, I travelled by air more than 100 times a year, by bullet train more than 100 times a year, and have had a fulfilling and abundant life and this still continues and grows.

What role did our data mining opportunity have on your decision to get involved?

The concept of data mining is completely different from the rewards that have existed until now. Mining rewards are received simply by wearing a wearable, and a system where demand exists for that anonymized bio data and most of all, you get paid for it. This is something that only blockchain technology can do, and I am so excited to be a part of Vyvo, the world's first implementation of a heartbeat-based blockchain.

Share some highlights of your journey so far.

JAPAN

One of the community members, a man in his 60s, was checking his physical condition on his watch regularly and an alert was noted on the Heka App. When he consulted with me about this, I recommended that he go to see a doctor because his status up to a few days showed all the abnormalities. He went to see a doctor the next day and diagnosed it as atrial fibrillation, which is the same symptoms as the abnormality on the app. Such early detection led to catheterization and he is now doing well. This makes me realise how proud and honoured I am to have been involved in Vyvo and I am so happy that our simple daily activities with the watch have led us saving lives.

What tips would you give to someone just starting out?

I believe that you will gradually feel the potential of Vyvo and digital health once you dive deeper. The best way to get started is to talk about various episodes in your daily conversations, such as what was good and what you enjoyed after you became a community member.

What excites you the most about future rewards and advancements in our community?

We are in the midst of a major global transition of Web3. In this context, I feel that Vyvo, as the overwhelming pioneer in the digital health field, will take a large share of the trillion dollar market that is about to be created. This is an unprecedented opportunity that will bring 'true wealth' to many people around the world. And that is for everyone who believes in their future, regardless of their knowledge, skills, or career! I am truly happy every day to see, feel, and rejoice with our community members in the evolution of Vyvo, which will become a global standard. I am grateful to be a part of this 'global revolution' that is making so many people happy and healthy.

Please note: The ranks featured in this magazine are updated as of April 1st, 2024

WANG HUNG MING CHEN CHIA LING Ambassador Influencers 2 Star

TOP INFLUENCERS

TAIWAN

What originally inspired you to get involved with our community?

At the end of 2022, knowing that VSC Chain is ready to collect global health data through wearable devices, and together with participants, create value, I feel incredibly excited because we are about to lead more people into the world of Web3, welcoming one of the biggest trends of the next 20 years!

Walk us through your journey and most rewarding milestones so far.

Helping tens of countries, tens of thousands of people to open inPersona wallets, creating hundreds of Premier and four Ambassadors.

What impact does our community's rewards have on your initial level of interest?

The reasonable value distribution and the platform's huge vision make me willing to lead more people to change lives here together.

Share with our readers your excitement and thoughts for the data mining opportunity within our community?

This is the only platform in the world that can monetize data, and anyone who understands it will be very excited.

What motivates you each day to keep achieving at such a high level?

Just thinking about the platform's great vision, I get excited to share it with many people. In the past, I created an MLM with an annual revenue of over a billion, so I combined my past experience with the allure of this huge trend, and achieved good results in a short time.

How has being a part of this community enriched both your personal and professional life?

In the past, I had quite good experience in finance, health food industry, and traditional franchising. But this is a Web3 project, also one of the biggest trends of the future, something I've never experienced before, and I find it quite fascinating.

What are some keys to the growth and success you've achieved?

After entering this race, I read a lot of related knowledge, participated in Web3 industry seminars, made myself an expert, simplified the relevant professional knowledge, and copied it to community partners, creating a simple and replicable system.

Therefore, in a short time, I extended to hundreds of Premier and four Ambassadors.

What advice would you give to someone just starting out, particularly about maximizing rewards?

Seriously understanding the major trends of Web3 and the content of the inPersona project, the clearer it becomes, the more confident I am, the more powerful the information transmitted will be, and the faster the community expansion will be. Learn from successful people: The project has already created many successful people in just one year. You can learn valuable experiences through courses.

What about our community makes you most excited for the future?

Through blockchain technology and the concept of decentralization of Web3, everyone can reclaim ownership of their data, and those who participate in the operation can also reclaim true channel operating rights. This is something that was difficult to achieve in the past world but can now be achieved in inPersona.

Is there anything else you would like our readers to know?

We are really lucky, all the partners in the community, because we are now striving on the world's biggest trend. Please don't hesitate, bravely spread this amazing information. Many people need health monitoring, and this business opportunity, they are waiting for us, let's cheer together!

LIN YU TI Ambassador Influencer 1 Star

LEADING INFLUENCER

What originally inspired you to get involved with our community?

I believe in trends of AI and future development. I also recognized the innovative smart wearable devices from VYVO, which can help people manage their health and practice effective risk management.

Walk us through your journey and most rewarding milestones so far.

vGeneration continues to innovate, with technology constantly advancing and making strides in Web 3.0 blockchain applications. It can bring health and wealth to all humanity. We've moved from belief to trust, and now we have unwavering faith! Everything is just beginning, and I believe vGeneration will bring a wonderful future to humanity!

What impact does our community's rewards have on your initial level of interest?

The community rewards program is the most innovative and unique diversified income opportunity globally. Earning from everyday life, even shopping transactions — it's so exciting that we can do things that others can't do.

Share with our readers your excitement and thoughts for the data mining opportunity within our community?

Get rewards through heartbeat 24 hours a day. The longer you live, the more you get. The powerful intelligent mining system is unique in the world.

What motivates you each day to keep achieving at such a high level?

TAIWAN

Being able to help more people every day by sharing a digital health ecosystem keeps me motivated and energized. Assisting others is the best business, and it fills me with energy every day.

How has being a part of this community enriched both your personal and professional life?

Trend — Everything is about innovation. Concept — Anticipate the future, enrich yourself, and expand your vision. Follow the company and change the world together with a global perspective.

What are some keys to the growth and success you've achieved?

I didn't understand technology, but after I joined Vyvo and became a part of the community, I gained a completely new perspective and understanding, keeping up with the trend of wealth. I became a better person and clarified my life goals and missions.

What advice would you give to someone just starting out, particularly about maximizing rewards?

The first step for newcomers remove is to have a correct understanding of the new era's trends! The company represents innovative technology, new thinking, and concepts. It's essential to understand the company's philosophy and beliefs seriously. Keep connected with the company to get the latest information and smoothly develop your business. Through the company's unique blockchain technology, you can mine with your heartbeat, enriching your rewards and income. Become winners and create your own financial freedom life.

What about our community makes you most excited for the future?

The company's core philosophy and values, digital health ecosystem, blockchain big data, and endless possibilities for the future make you economically independent and endlessly excited about the future, and also feeling happy!

Is there anything else you would like our readers to know?

A new trend is changing human lifestyles and consumption patterns, bringing immense wealth to the world. The company provides an opportunity for everyone to participate in the redistribution of wealth worldwide. It's a priceless opportunity that you need to realize to achieve. Let's motivate each other! Follow the company to change our lives and change the world together!

LE HOAN Ambassador Influencer 1 Star

TOP INFLUENCER

What originally inspired you to get involved with our community?

I learned about Vyvo quite by accident. While having coffee with a friend who is currently the VP of Market Expansion, Vyvo SocialFi Vietnam, she mentioned that her boss, Fabio Galdi, sent her a document about blockchain that sparked her interest.

Seeing this as an opportunity to leverage my experience in the field, I offered to help her understand the document better. After delving into the introductory materials about Vyvo, I became intrigued by the company's mission and vision. I promptly reached out to discuss directly with Fabio, expressing my interest and seeking clarification on certain aspects of the project.

Following extensive online discussions with Fabio regarding Vyvo's technology, strategy, and plans, I was deeply impressed. This led to Fabio inviting me to Bangkok for an in-person meeting to delve further into the project. Ultimately, I agreed to collaborate with Vyvo due to its alignment with my values and its pioneering vision in blockchain applications for health data mining—an endeavor I had long been seeking.

What impact did the data mining opportunity in our community have on your decision to get involved?

It helped me evaluate the overall vision of the project and the value it brings to the Vyvo Smart Chain ecosystem. Personally, I have years of experience with blockchain and crypto. The application of blockchain to exploit health data adds unique value to the Vyvo Smart Chain ecosystem. I see the vast potential for this blockchain and \$VSC which community Members can earn from their data ownership. Additionally, I also see great opportunities for community building with Vyvo's SocialFi and HealthFi programs.

Share your story and the biggest moments along the way.

In the few short months after starting with Vyvo, the most important moments were the conversations with Fabio, and asking many, many questions. We understand each other better and he also helped me clearly understand the project. That was the result of me "tormenting" Fabio with so many questions. Perhaps no one has asked him as much as me.

How has the community, and its rewards, impacted you?

These things mean a lot to me. I love building a community and inspiring others. The SocialFi Reward program and other rewards give me the tools to satisfy my passion. I have earned many millions of dollars from previous businesses and have been retired for three years. Thanks to Vyvo's project, I have the motivation to do something again and inspire the community.

How has being a part of this community enriched both your personal and professional life?

As mentioned above, being a member of the vGeneration community helps add energy and purpose in my life. Community building is an activity that provides opportunities and an environment for everyone to learn and develop themselves. I love that.

What tips about earning rewards can you offer to newcomers?

As a newcomer, the most important thing is to be consistent and focused to learn from your leaders. Take continuous action and overcome rejections. If you keep going, someone will definitely understand the value of the project and what you do. Go beyond your comfort zone and results will come.

What about our community makes you most excited for the future?

Vyvo is not only a business that can generate a large income stream. Vyvo also gives you the potential for explosive growth from the \$VSC you accumulate. Things don't stop there, as Vyvo also has many opportunities and sources of income for you. Build once and enjoy lasting results. It's worth putting all your effort and focus into it!

Is there anything else you would like our readers to know?

In terms of building a business system or even in terms of finance, Vyvo brings you great potential. If you are a blockchain and crypto lover, \$VSC is a great option for you to consider adding to your investment portfolio. The uptrend season of the crypto market is approaching, \$VSC can absolutely be an option that brings you a lot of profit potential, so carefully research Vyvo Smart Chain's ecosystem and don't miss your opportunity.

Empower Your Health, Earn Your Future Take part in the Vyvo Revolution

Mining and staking Vyvo Smart Chain (VSC) tokens offer a cutting-edge pathway to democratized and user-driven health data management. Within Vyvo's ecosystem, participants are not just passive data providers; they are active contributors to a broader health revolution, empowered to gain insights, enhance medical research, and earn rewards, all while their privacy and data ownership are safeguarded.

Central to Vyvo's innovation is the Vyvo Smart Chain, a bespoke blockchain infrastructure crafted to anchor the world's pioneering decentralized digital health platform. By engaging with Vyvo's advanced wearable and IoT sensor-enabled devices, users embark on mining VSC tokens. The heart of this process is "Proof-of-Sensing," a mechanism that validates, encrypts, and securely stores health and wellness data on the blockchain, thus ensuring users' unfettered ownership and control over their personal information.

Whether you're drawn to the potential of personal health empowerment, intrigued by the application of blockchain technology in new domains, or eager to explore innovative data monetization avenues, Vyvo stands as your gateway to making a tangible impact.

This movement is what you're a part of! It's a vastly unique venture, unlike anything else around the globe. From mining and staking VSC tokens today, you're stepping into a world where your health data does more than just inform you—it rewards you.

Shaping the Future Ambassador Influencer Spotlight

Ambassador Influencers have reached the highest rank category through their tireless leadership and acting on their clear vision amplified by the opportunities Vyvo offers. Their impact transcends borders, and their example of commitment and achievement are an inspiration to all.

MAKIKO SOEJIMA AKIHIRO INOUE Ambassador Influencers 2 Star

The community has had a lot of positive impact on our life and business. We are so grateful for the many community members we have met through Vyvo, people with similar values and for the smiles we see in their faces truly makes us happy. We would love to continue to value the real community that has strong bonds of friendship and expand our community even more.

YOSHIE KOMAMI Ambassador Influencer 2 Star

I have been with Vyvo for eight years now. As Vyvo continues to grow, the way we work is also changing rapidly. By expanding the Vyvo community, I realize how much I am contributing to our health, economy and society. I would love to continue to share this wonderful Vyvo community circle with more people.

YUKIKO TAMURA Ambassador Influencer 2 Star

The best joy of my life ever is that my life has been enriched by meeting Vyvo, Fabio, and all the management team.

This is truly my best treasure. Also I am very happy to have wonderful members as well. Vyvo has let me to learn every day, evolve myself and increase knowledge which I am really grateful for.

CHIHO YAMASHITA Ambassador Influencer 1 Star

It was a great turning point in my life to be able to meet with Vyvo, a company that allows me to be involved in business with the world of cutting-edge technology. I am so excited to challenge myself constantly with new things.

True fulfillment in life comes from a holistic balance and ease of body, mind, and spirit. Vyvo Group's inPersona data collection NFT can help us achieve the goal.

Our health data stands at the forefront. Wearing devices to monitor health adds points to our health account every day. We are believers in VSC, sharing and embarking on missions for love. Today's heartbeat is tomorrow's income! Every day, deposits are made into our wealth account.

Love, abundance, and happiness are the core beliefs of our team. Thanks to the founder Fabio for leading the global change and my benefactors Jacky & Joan, who passed on this information to me.

CHEN CHIUNG MIN CHIANG CHI SHAN Ambassador Influencers 1 Star

My spouse and I have been searching for opportunities throughout our lives. In 2019, we encountered the Vyvo platform and have been following the vision and goals of its founder Fabio ever since. We've held onto perseverance, believing in the law of attraction.

By associating with the right people and engaging in the right activities, we continuously share the benefits of a good business with those around us, enabling them to achieve both health and wealth. In doing so, we've also inadvertently accumulated our own blessings. Always trying harder as cosmic ordering is a type of positive thinking proposed, who believed that a person could simply write down their wish list and wait for it to come true. Let's work together with partners to achieve financial freedom!

SHEN CHAO HUNG KU YUNG HSIN Ambassador Influencers 1 Star

We are grateful for the generosity of Fabio Galdi, who allows us to reach new heights in life! Making entrepreneurship simpler, igniting more passion in life, and illuminating the world with love are our missions.

We will continue to uphold values of passion, gratitude, and pursuit of excellence, empowering millions to reclaim ownership of their data, nurturing talents, creating miracles, and contributing to the world. It's wonderful to have the VSC Foundation to make a positive impact for humanity together.

LIN YA LI Ambassador Influencer 1 Star

I am very grateful for the inPersona platform, which allows me to monitor my body data at any time through wearables, manage my health well, and receive rewards in return! The borderless community development creates stable income, and now the community has expanded to more than 10 countries. There is more money and time dedicated to this world, and being able to give is the happiest thing.

Elite Influencers Demonstrating Exceptional Leadership

Vyvo's Elite Influencers have established themselves as strong leaders and visionary, committed Members. Their guidance and support has helped many others pursue their goals as part of the Vyvo Generation. We are proud to partner with these Influencers!

Reclaiming Your Digital Life

Reclaiming Your Digital Life

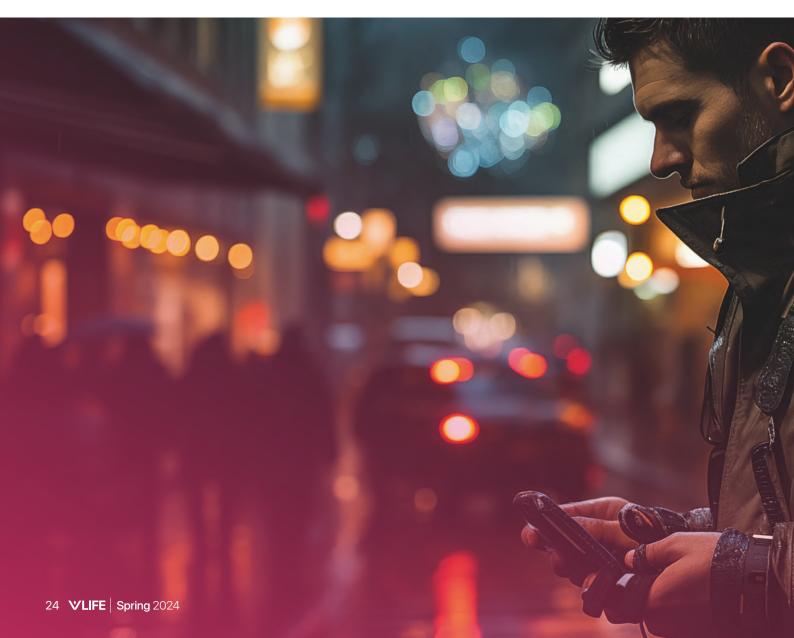

Since 2019, Vyvo has been uniquely focused on technology and its impact on users in ways that make their life easier. More recently, this attention has narrowed to a more distinct view of data ownership — the radical idea (for some) that people should be able to control their data and, when they choose, benefit from it. This guiding principle now drives every innovation and service offered by the Vyvo Group.

Our approach challenges the conventional data economy, where tech behemoths profit immensely from user data without user consent or compensation. Platforms like Google, Facebook, X (formerly Twitter), and Instagram have built empires on the premise of so-called free services. In reality, users pay for these with their privacy and by giving up control of their personal data. In contrast, Vyvo aims to disrupt this model by empowering users to monetize their wellness data.

Empowerment Through Technology

The core of Vyvo's philosophy is the empowerment of individuals through cutting-edge technology. Vyvo leverages blockchain to secure user data collected through wearable technology. This data collecting has expanded from devices made by Helo Health in the Vyvo Group to devices from Apple and others through the new Data NFT Stake.

Unlike the opaque operations of digital giants, Vyvo ensures transparency and security, allowing users to share their data on their terms and receive tangible rewards in return.

Protecting data ownership and privacy, and giving people a way to benefit from their data, are just two parts of the Vyvo story. Our platform is also all about giving users greater awareness of their health and wellness through analysis and reporting of their biodata. This knowledge puts users in control, enabling them to make better lifestyle choices

From Users to Partners: Sharing the Vyvo Vision

We invite everyone to join this paradigm shift towards data sovereignty! As more and more people participate in Vyvo's ecosystem, they can not only take control of their digital lives, they can also contribute to a community that values privacy, empowerment, and wellness.

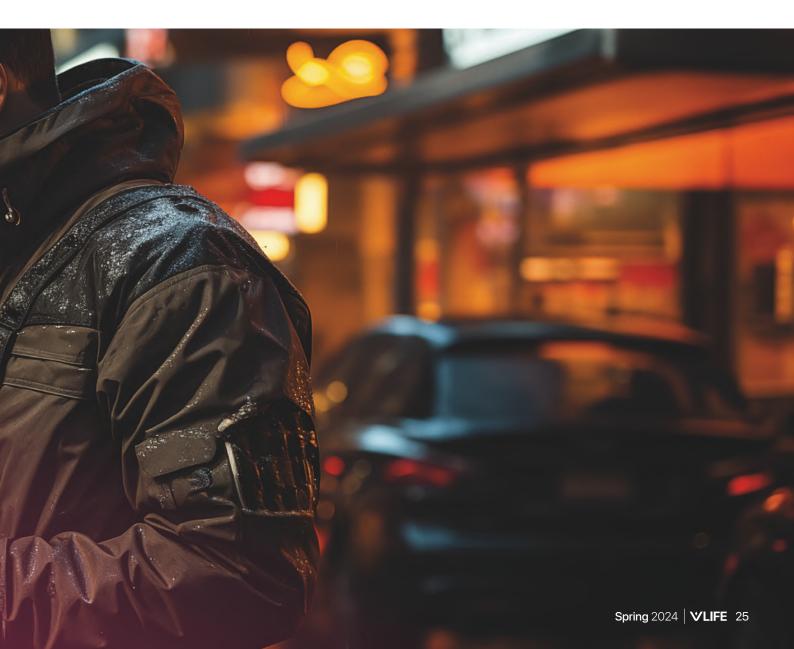

In reality, then, what we offer is no mere product or a

platform — it's a movement that places users at the helm of the digital revolution.

A Future Where You Lead

We're not content to accept the status quo or stand idle as technology advances. We will continue to innovate and enhance our movement and our offerings to meet the evolving needs of our community. As a part of Vyvo, you're not merely using a service; you're embracing a future where digital autonomy is a reality for all, and you're helping to expand the benefits!

Together, we are building a world where data doesn't just create wealth for a few, but empowers millions of people all over the world. What a thrilling movement to be a part of!

International Convention

Past Event Spotlight 2023 Vyvo International Convention

For everyone at the Vyvo 2023 International Convention in Taipei, the big moment was the reveal of NutraMatic[™]. This upcoming device — the next milestone on the NutraLife AI roadmap — will be a revolution in the supplement industry.

Before NutraMatic wowed the crowd, VSC CEO Fabio Galdi got everyone excited with big announcements of his own. These included:

- BioSense™ Lock, the first cold wallet smartband
- Data NFT Stake, allowing compatibility with other devices
- Vyvo Smart Chain selected for Web Summit's
 Startup Growth Program

Following the day's exciting reveals, we celebrated all Influencers on stage who advanced in ranks. Not only was this a joyous and thrilling way to recognize our achievers, it also provided powerful visual evidence of how many Influencers have made the most of everything this community offers.

View Album

Convention Recap Video

Rising Influencers The Start of Something Meaningful

Rising Influencers are at the beginning of their beautiful journey with Vyvo. They've caught the vision of what is possible in our community and have taken the first steps toward their goals. We celebrate the commitment they've made to helping others also make valuable progress.

There are so many Rising Influencers to celebrate, we invite you to visit our website for the full list! Scan the QR code to discover all the names of our inspiring Influencers.

Setting the Vision | The Future Makers Council

The Future Makers Council brings together corporate leadership, Vyvo Ambassador Influencers, and other top Influencers from around the globe. This Council is a forum for these visionaries to hear more about the bold, shared vision we are building, and how we can jointly leverage the SocialFi Web3 ecosystem to maximize what we can achieve together.

The Future Makers Council convenes twice a year for in-person meetings, supplemented by additional online gatherings. With an unwavering commitment to transparency and openness, the Future Makers Council, its distinguished Members, and invited community contributors collaborate to advance our global community and the broader industry, upholding the highest standards of integrity and professionalism.

Scan the QR code to learn how you can be part of the Future Makers Council.

A Tech Pioneer's Journey Q&A with Fabio Galdi, CEO of VSC & President of Vyvo SocialFi

The inception of Vyvo was clearly a moment of foresight, recognizing the untapped potential of individual health data. With the global shift towards blockchain and cryptocurrency, how does Vyvo leverage these technologies to transform lives not just technologically but also financially?

Our journey at Vyvo mirrors the broader transformative wave that blockchain and cryptocurrency have ushered in globally. Much like the revolutions sparked by the Internet and mobile technology, Vyvo seizes this moment to revolutionize health data's value and ownership. By introducing the world's first Heartbeats-Powered Blockchain, we're not only simplifying crypto mining through everyday activities but also redefining the ownership and value of health data. This shift empowers individuals by turning their heartbeats — an overlooked resource that everyone has — into crypto earnings with Vyvo Smart Coin (VSC), establishing a new paradigm where users own and profit from their health data securely on the blockchain. Reflecting on your journey, what were some pivotal lessons learned that have sculpted the ethos and culture of Vyvo today?

Resilience, innovation, and the importance of vision were the cornerstones laid during Vyvo's formative years. These principles have galvanized us into a pioneering force within the both the health tech and blockchain domains, underpinning our mission to empower individuals with unparalleled control over their digital and physical well-being.

How has your rich Italian heritage and diverse global experiences influenced Vyvo's identity and your leadership style?

My Italian roots have imbued me with a zest for innovation and the audacity to challenge the status quo. This cultural heritage, combined with extensive global exposure — particularly in Asia — has broadened my perspectives on community and holistic well-being. These influences are now deeply woven into Vyvo's DNA, propelling our commitment to creating a universally accessible, decentralized health platform. Among Vyvo's suite of innovations, the integration of wearable technology with blockchain stands out. Could you delve deeper into how Vyvo transforms everyday activities into opportunities for crypto mining and the broader impact of this on personal health management?

Certainly. Vyvo stands at the forefront of this revolution by transforming passive data collection into an active, rewarding process. Our approach — encapsulated in the simple mantra of 'Connect, Wear, Earn' — empowers individuals to mine crypto by merely going about their daily lives. By wearing a device, like the Vyvo Health Band or even an Apple Watch, and linking it to a Data NFT, individuals can mine VSC daily. This process not only democratizes earnings from health data but also encourages a proactive stance towards health management, where every heartbeat contributes to both physical well-being and financial prosperity.

Looking ahead, how do you envision the expansion of Vyvo's product offerings and the overall user experience?

The future for Vyvo is boundless. In the next decade, I anticipate a seamless integration of health, financial autonomy, and digital identity within our ecosystem. Vyvo is set to become the quintessential hub for digital engagement, breaking new ground in how individuals interact with technology to manage their health, finances, and personal data — and placing personal benefit from that data at the forefront.

As Vyvo scales, how do you ensure the company's culture and values align with your vision for global impact?

Our strategy is rooted in fostering a culture of innovation, community, and shared success. We're building a global movement where every member feels valued and motivated to contribute to our collective mission, strengthening our foundation as we scale.

With Nutralife AI and Vyvo's blockchain initiatives, you're paving new paths in health and technology. How do these innovations reflect Vyvo's mission to empower individuals and transform the landscape of health data?

Both Nutralife Al and our blockchain initiatives are testament to Vyvo's unwavering commitment to empowerment and transformation. Nutralife AI epitomizes our effort to tailor health solutions at an individual level, while our blockchain endeavors aim to secure and maintain the value of personal health data. By marrying these technologies, Vyvo aspires to create the largest decentralized and blockchain-secured health platform, where contributions to our diverse big data not only enhance personal health but also play a pivotal role in future health research. This synergy underscores our mission, reflecting a future where technology not only serves but also rewards individuals.

What does "digital freedom" mean in the context of Vyvo, and how are you working towards achieving it?

Digital freedom, for us, means empowering individuals with full control over their personal data, ensuring their participation in the digital economy is secure, private, and beneficial. Through Vyvo's blockchain ecosystem, we're making this concept a tangible reality for our users.

With Vyvo at the forefront of health data, fintech, and decentralization, what developments are you most excited about?

I'm exhilarated by the prospect of further dismantling barriers to financial inclusion, expanding our global community, and exploring novel technologies to deepen user empowerment. The journey ahead is rich with opportunities for innovation and impact.

As you envision Vyvo's legacy, how do you see these technological advancements contributing to society and the digital landscape, especially considering the potential for financial empowerment and health innovation?

Vyvo's legacy, I believe, will be marked by a significant shift towards a more equitable and empowered digital ecosystem. Through our technological advancements, we aim to redefine the narrative around health data, transitioning from a model where data is commodified without user benefit to one where individuals are at the helm, benefiting financially and through personalized wellness insights. This not only has the potential to foster a healthier society but also contributes to a wealthier future for individuals globally. As we continue to expand our ecosystem, the convergence of health innovation and financial empowerment will remain central to Vyvo's mission, potentially setting a new standard for how technology interfaces with our lives.

A Grand Recognition Experience in Singapore

The inaugural Grand Gala event in January was all we could have hoped for ... and more!

Representing the premier recognition event from Vyvo, the Grand Gala brought together award finalists from Japan, Taiwan, and Vietnam in a luxurious setting — the JW Marriott Singapore South Beach. Ambassador Influencers attended as honored attendees, along with additional Vvvo Members from around the world and executives.

Eleven Influencers took to the stage throughout the night

to receive their awards, with the four courses of an exceptional dinner served in between award segments. Tadamasa Shimizu-san accepted the Top Country Achievement Award on behalf of Japan.

It truly was a night for our Influencers to shine like stars! Keep reading to meet all of our award finalists. Scan the QR code and see how you can shine on stage next year.

CONNECTOR AWARD

Insights into your journey that culminated in this achievement

Because there is love and responsibility! Love means seeing one's own responsibility in the needs of others. There are too many friends who need the opportunity to gain health and wealth at the same time, but they still don't believe it, haven't seen it, and haven't started yet. They have to communicate through their own efforts to have the opportunity.

VSC TOP MINING COMMUNITY AWARD

Insights into your journey that culminated in this achievement

Shortly after registering, I was convinced that this would be my first and last great accomplishment in my life, and as a way of giving back to the many people who have been involved with me, I gathered all the information I could and passed it on to everyone in the community.

However, I continued to receive support and study sessions so that I would not fall down. It was three and a half years of such thoughts. I was nervous, motivated, and grateful to be involved in the Vyvo business, which was one of the first to implement Web3 and collaborates with various companies that are leading the world. Through this work, I have been able to support many people, develop myself as a person, and feel a great sense of accomplishment, and every day is filled with excitement.

COMMUNITY GROWTH AWARD

Advice you'd share with individuals aspiring to similar success

First, I think speed is important ... being able to get accurate information as quickly as possible and conveying it to the community in an easy-to-understand manner. Second, I think it's very important to participate in all company events.

Your future plans and strategies for success this year

I believe goal setting is the most important thing in any field. With the members who are now starting to form a new community for next year's Prestige Club, we are holding Zoom training sessions for information, as well as monthly real training sessions. We hope to hold networking events of friends working towards the same goal. I would like to do my best to build a team that is fun and friendly, and support these positive and energetic young people, with the goal of recruiting 10 Premier Influencers a month.

TOP COUNTRY ACHIEVEMENT AWARD

On behalf of all of us in Japan, I would like to thank everyone for this prestigious award as the Country VIP. I would also like to mention that all of my fellow Vyvo members, Ambassadors influencers, other influencers, and Vyvo staff in Japan are honoured to receive this award as the country's top winners. I know this has been a turbulent year for Japan with many things happening.

I believe that the Influencers who have been with us for a long time were confused in a way and anxious and did not know what to do, but I always encouraged them that we are here now because we believed in our leaders, VIPs, company, and most of all, believed in ourselves.

I believe that the legend of Vyvo Group has just started. A lot of fun and excitement with Vyvo Influencers from all over the world is ahead of us! I would like to extend my sincere gratitude to the continued support of Vyvo Head Office. And last but not least, I would like to thank all the Vyvo group Influencers around the world for their support and help in making us the top country.

Insights on your journey to achieving this success

I am delighted to have the opportunity to be involved in such a fantastic business. I have always been dedicated, enthusiastic, and committed to my work because I know this project helps people become more proactive about their health, live healthier, and be more positive every day. I am grateful that Vyvo is constantly improving and upgrading its technology to make it even better.

Tran Mai Phuong Vietnam

Advice you'd share with individuals aspiring to similar success

Choose a job that you are passionate about, that allows you to contribute and help others and the community. And do it with all your enthusiasm, give it your all, continuously learn and upgrade your mindset, and take action. Surely, you will reach the goal you desire. And sometimes it will bring you even more wonderful things than you expected!

Your future plans and strategies for success this year

My plan is to enhance community awareness about health, improve the effectiveness of marketing strategies and advertising through various media channels. This will help me achieve sustainable development and success in the data-driven health market, earning from the heartbeat of life.

Excellence Defined: The Prestige Club Experience!

As we recount the unforgettable Prestige Club event in Singapore, let's first acknowledge the dedication and achievements of our qualifying Ambassador Influencers. Their hard work and commitment secured their participation in Vyvo's most prestigious recognition, creating memories that will last a lifetime.

The first night began with a welcome reception at "Cé La Vi" on the rooftop of Marina Bay Sands. In addition to cock-tails and canapés, the group enjoyed stunning city views.

After personal time on the second day, the afternoon featured a luxurious, magical island tour by yacht, capped by an on-board gourmet dinner in the evening. As the city lights shimmered on the water, a gentle sea breeze and the enchanting skyline of Singapore made for a truly relaxing and memorable experience for all.

The final night's highlight was the Grand Gala, which Ambassador Influencers attended as honored guests. They were at the heart of the evening's festivities, adding an extra touch of elegance and prestige to the occasion as they walked the stage to be recognized for their hard work.

The Prestige Club is undeniably exclusive, yet it remains

accessible to every Influencer who reaches the rank of Ambassador Influencer 1 Star. Set your goal to reach this rank and join us on the next Prestige Club luxury getaway!

Decentralizing Your Digital Life with Vyvo A New Era of Empowerment and Security

In a world where our digital footprint grows larger by the day, Vyvo stands at the forefront of a revolutionary shift toward decentralization. This transformative approach offers a new paradigm that champions user empowerment, data security, and financial autonomy. Through Vyvo's cutting-edge technologies and services, we're not just participating in the decentralization movement — we're leading it!

Understanding Decentralization with Vyvo

A decentralized system distributes control across individual users. Vyvo embraces this concept, revolutionizing the management of our digital identities, finances, and wellness data. By leveraging blockchain technology, Vyvo ensures that you have sole ownership and control over your personal information, making your digital life not only more secure but also truly yours.

Vyvo's Decentralized Ecosystem

From our wearable devices to our dApp, each innovation is meticulously designed to afford you unparalleled control over your data. The wearables, for instance, do more than monitor your health; they empower you to own and monetize your health data securely, thanks to Vyvo's proprietary blockchain technology. Our platforms allow you to benefit from your data. This shift not only enhances your privacy and security but also opens up new avenues for your financial independence.

The Benefits of Embracing Decentralization with Vyvo

Choosing Vyvo's decentralized solutions offers several key advantages:

- Enhanced Security: Your data is safeguarded by blockchain technology.
- **Privacy and Control:** You have full control over the use and sharing of your data.
- User Empowerment: Vyvo places you at the center of your digital life, with opportunities to monetize your data and engage in our DeFi ecosystem.
- **Future-Proofing:** Stay ahead in the digital evolution, ready for future interactions.

Sharing Vyvo's Decentralized Revolution

By embracing Vyvo's ecosystem of products and services, you're taking a bold step toward securing your digital independence. It's an opportunity to navigate the digital world on your terms. Plus, you have numerous ways to invite others to join this revolution and help them enjoy all the benefits of our community, where their digital identity, health, and finances are truly in their hands.

Discover the Magic of Koh Samui with Vyvo Lifestyle Holiday

As we continue to celebrate and inspire our Vyvo family, our next extraordinary Lifestyle Holiday destination takes us to the enchanting shores of Koh Samui, Thailand. This serene island, known for its pristine beaches, lush tropical gardens, and luxurious resorts, promises an unforgettable escape that combines relaxation with adventure.

A Journey to Paradise

Koh Samui is more than just a holiday destination; it's a vibrant sanctuary where natural beauty meets serene luxury. Nestled in the Gulf of Thailand, the island is famous for its palm-fringed beaches, coconut groves, and dense, mountainous rainforest. It is an ideal location for those who seek tranquillity and rejuvenation amidst nature's finest backdrops.

Qualification and Participation

Qualifying for this dream getaway involves dedication and excellence in your role as an Influencer. The criteria set forth for this holiday are designed to inspire peak performance and reward our top achievers. Here's how you can join us in Koh Samui:

How to Qualify

Accumulate a minimum of **2,000 Lifestyle Points** within the qualification period. Your accumulated **Lifestyle Points** determine your exact reward.

Flight Contributions: From Japan: USD 800 | From Other Asian Countries: USD 500 | From Europe: USD 1,000 | From United States: USD 1,200

Once you have qualified with a minimum of 2,000 Lifestyle Points, you will receive an email inviting you to register. Ensure your registration is fully complete with all necessary details including your flight information and reservation number. This is crucial as it allows us to manage accommodations effectively and ensure everyone enjoys a seamless experience.

Visit our website for more details

We can't wait to see who will rise to the occasion and join us in Thailand.

A User's Journey

Getting involved with Vyvo and being part of the Vyvo Generation community opens the door to an exciting journey of discovery and rewards. There are many scenic routes and enriching destinations to explore.

No matter where the interests of your audience lie, there's an entry path that will appeal to them and start them on a rewarding journey. Once they have embarked, they can experience the full breadth of what Vyvo and the Vyvo SocialFi Rewards Program have to offer. As you share Vyvo with others, keep in mind that, in the end, it doesn't matter so much why someone gets involved with us, because once they're in, they can benefit from every aspect!

For example, their journey may initially be inspired by, metaphorically, the beautiful beach of Vyvo's advanced wearables, but they'll soon find even more to like in the cultural riches of our health data mining opportunities.

Or they may be enticed by the buried treasure of monetizing their data, and find much to love about the stunning mountain ranges of blockchain privacy protections. At its core, Vyvo provides unique solutions to common problems faced today, and giving people those solutions is a key to growing your community.

While the path people take to join us varies, the community experience they find is universally fulfilling. The primary Vyvo ecosystem entry points include:

- Seeking privacy and data control through the Vyvo Smart Chain blockchain.
- An interest in residual earning from your data through inPersona's anonymous data sharing.

- Take part in data mining, with our simple Connect, Wear, and Earn Rewards Program.
- A desire for cutting-edge wearables focused on total wellness.

In sharing Vyvo's story and ecosystem, meet people where their interests lie. But also be confident there's a rewarding journey ahead no matter where they start — a journey filled with discovery, growth and limitless potential rewards. Remember, as you continue to share the Vyvo story, you have numerous entry points you can emphasize.

Demystifying Tech The TechltEasy Way

Hey, Future Makers! Antonio Pagano here. I'm super excited to bring my tech-demystifying magic to the pages of vLife Magazine.

As many of you know, I host the TechItEasy YouTube channel with my pal vGenius. For nearly a year, we've been explaining complex tech topics in bite-sized, engaging videos. Now, we're ready to bring our fun, simplified tech approach to print!

Contributing tech articles to vLife's issue one represents the perfect blend of analog and digital that I love. Print magazines with a crisp, tactile feel fused with cutting-edge topics like AI, crypto, the metaverse, NFTs, and more. An "old school" medium converging with new innovations — talk about an interesting contradiction!

In our upcoming videos and magazine articles, you can expect the same practical, humorous style that's the core of TechItEasy. We'll keep unravelling the latest advancements, from how blockchain really works to the truths about Web3 and beyond. All so you can grasp and use these emerging technologies in your life. And, of course, vGenius will lend his wisdom along the way! As he always says, "The future doesn't have to be confusing."

Thank you for your continued support as we expand TechltEasy from screen to page and back. I love making technology understandable for an amazing community like vGeneration. Please email me at vgeniusai@ vgenglobal.com with any topics you want to be covered — the more specific, the better!

The future gets more exciting when you can understand it. So let us explain it in ways that make you go, "aha!" Tech revolution, here we come!

See you in Koh Samui, Future Makers!

Ciao for now,

Antonio Dagano

Antonio Pagano TechltEasy Host

Recognizing Remarkable Achievements

At Vyvo, recognizing our Influencers for their phenomenal accomplishments is central to our mission. Below are Vyvo Generation's recognition ranks to honor our talented Influencers who make this community so impactful.

These ranks allow us to highlight top Influencers creating change. From Rising Influencers sharing our mission to veteran Ambassador Influencers reaching record heights, your work powers our global movement.

Ambassador Influencers have reached the uppermost echelon as they exemplify the boundless potential of determined individuals united by a common purpose. To all our Rising Influencers taking their first steps, to the Premier Influencers expanding horizons, to the Elite Influencers taking us higher, you inspire us every day. And to our distinguished Ambassador Influencers guiding the way forward, your monumental success makes all things seem possible!

Stay tuned for more initiatives recognizing how each Influencer brightens our community, because you are the dreamers and the doers who transform our aspirations into reality!

You dared to think big, and we are privileged to share this rewarding journey with you.

| | <u> </u> | | 02000 |
|--|---|---|---|
| Rising Influencer | Premier Influencer | Elite Influencer | Ambassador Influencer |
| 1 Star, 2 Star, 3 Star For those laying the foundation and building their connections. | 1 Star, 2 Star, 3 Star For established data miners with growing communities. | 1 Star, 2 Star, 3 Star For veteran Influencers driving exponential expansion. | 1 Star, 2 Star, 3 Star, 4 Star, 5 Star For the ultimate Influencers spearheading unprecedented growth. |
| 1 Star - 1,000 Production 2 Star - 10,000 Production 3 Star - 20,000 Production | 1 Star - 30,000 Production 2 Star - 60,000 Production 3 Star - 100,000 Production | 1 Star - 200,000 Production 2 Star - 400,000 Production 3 Star - 600,000 Production | 1 Star - 1,000,000 Production 2 Star - 2,000,000 Production 3 Star - 3,000,000 Production 4 Star - 4,000,000 Production 5 Star - 5,000,000 Production |

Recognizing Impact Through Vyvo SocialFi

Our Community Award recognizes Influencers' production achievements within the SocialFi program, based on four consecutive epochs.

This exciting initiative further highlights our standout Influencers across all levels.

As Influencers achieve new SocialFi production milestones, they will be awarded the corresponding recognition rank and stars. This gives us another opportunity to celebrate the remarkable contributors who continue growing our community every day. From rising newcomers to leading Future Makers, your SocialFi activity accelerates our collective impact.

The SocialFi Award is the latest initiative in our expanded recognition program because highlighting Influencer achievements across all platforms is fundamental to our mission.

Congratulations to everyone receiving their first SocialFi star; this is just the beginning! Let's continue reaching for new heights together.
