SKIP THE ORDINARY  
**CHOOSE THE EXTRAORDINARY!**

# INTRODUCING AN EXTRAORDINARY BREAKTHROUGH, MADE JUST FOR YOU.

Why wear the same basic health band everyone else does? Choose the best, a health band as sophisticated and stylish as you are. **Powerful**, yet *elegant*.

Meet the **BioSense health band**, a wearable device from Helo unlike anything in its category. From the moment you put it on your wrist, you'll find it capable and comfortable, powerful and practical, life-enhancing and life-changing. All of that in one elegant, ultra-thin and ultra-light device you'll enjoy, and even love. It's your constant companion and ally in improving your health and wellness. It's the wearable you have been waiting for.

**BIOSENSE IS WHAT  
OTHER HEALTH  
BANDS WANT  
TO BE LIKE WHEN  
THEY GROW UP.**

**BioSense**

# UNDERSTAND YOUR BODY LIKE NEVER BEFORE

You'll be amazed at all of the health-monitoring features packed into the BioSense health band, each designed to help with your wellness goals.

## HEALTH FEATURES

# JUST TOUCH... AND **KNOW**

## HEALTH FEATURES

### **CLINICAL-GRADE FINGER-TIP SENSOR**

#### **BP + SPO2 + APG**

It couldn't be simpler to check your SpO<sub>2</sub> (blood oxygen), blood pressure, and APG (vascular age) readings at any time. BioSense is equipped with an advanced optical sensor on the face and all you have to do is place your fingertip on it for a few seconds. Your results are reported on the Vyvo Smart App right away.

# INSIGHTS THAT ARE POSITIVELY ELECTRIC

**BioSense**  
health band

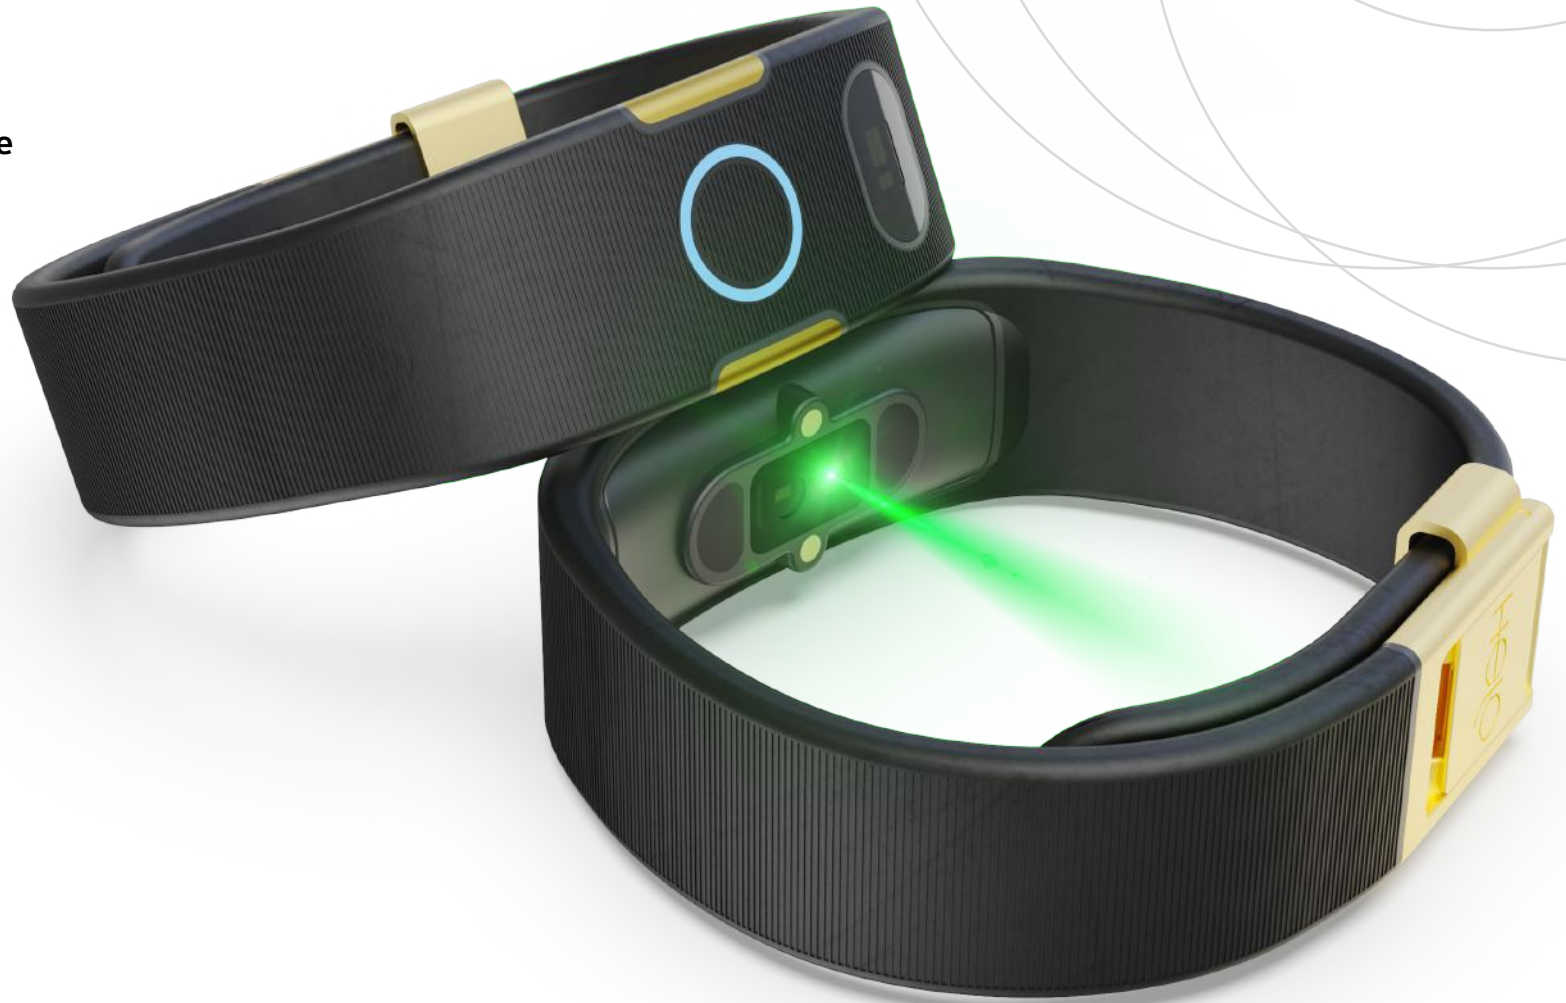

## HEALTH FEATURES

### **BIA › Bioelectrical Impedance Analysis**

A scale doesn't tell you much about your health. BioSense uses BIA to give you a deeper understanding of your body composition, far beyond just your weight. That makes it easier to know where you're at, so you can get to where you want to be.

### **Electrocardiogram Measurement**

Never miss a beat. Check your heart rhythm at any moment with an accurate ECG reading.

# ALWAYS KEEPING A **DIGITAL EYE** ON YOUR HEALTH

**BioSense**  
health band

## HEALTH FEATURES

### **Continuous Monitoring for Atrial Fibrillation (AFib)**

AFib is a potentially dangerous irregular heartbeat, and with BioSense you can always know when you're having an attack.

### **Continuous Monitoring of Other Key Health Metrics**

BioSense automatically monitors your heart rate, breath rate, SpO2, stress and energy levels and skin temperature, and alerts you when any are too high or too low.

# YOUR SAFETY IS BUILT INTO BIOSENSE

## HEALTH FEATURES

### GUADIAN ALERT and Push Notifications

If any of your key metrics are outside of your usual range, Guardian will push a notification with your current location to anyone you have designated in the Vyvo Smart App. This is an added measure of safety in moments when your health may be at risk (requires a connection to a smartphone with a cellular signal).

## THE INSIGHT YOU NEED TO TAKE ACTION

Even from your wrist, BioSense has your back. In addition to hyper convenient and accurate health monitoring, BioSense also tracks behaviors that impact your wellness.

**WELLNESS**

**BioSense**  
health band

## WELLNESS

# YOU DO IT, WE'LL TRACK IT

BioSense counts the steps you take, how often you stand, and also the calories you burn, helping you avoid sedentary behaviors.

**BioSense**  
health band

## WELLNESS

# WAKE UP TO KNOWING MORE

Enjoy a precise understanding of how well you sleep. Every morning after sleeping with BioSense on your wrist, access an in-depth report of your overall sleep quality on the Vyvo Smart App. See how long you spent in each sleep stage, including accurate reporting of REM sleep. Sweet dreams are made of this!

**BioSense**  
health band

# YOUR DATA, YOUR PRIVACY PROTECTED

And you won't lose any sleep wondering about  
the privacy of your data.

**DATA & PRIVACY**

# VYVO SMART CHAIN SECURES YOUR DATA

## DATA & PRIVACY

Another way BioSense is unlike any other health band on the market is how it protects your personal data captured as you use the device ... and it even helps you benefit from that data through the Vyvo Smart Chain (VSC)!

BioSense is equipped with a VSC Proof-of-Sensing (POS) Encryption Chip to secure your data with blockchain technology. VSC is used to verify and validate the origin and generation of health, wellness and environmental data. As a POS-enabled device, BioSense can generate a reward of VSC Coin as it gathers your health data.

## THE EASIEST WAY TO PAY

You may never need to reach for your wallet again.

**PAYMENT**

## PAYMENT

# WEAR YOUR WALLET

VyvoPay is built right into BioSense, meaning you can easily tap to pay at NFC contactless terminals around the world. It's so convenient, you don't have to find the right card or even worry if you leave your wallet at home. You'll wonder what you ever did without it.

**BioSense**

# THIN. LIGHT. POWERFUL.

What might be most remarkable about BioSense is that it's a mere 2.5 mm. thick and a feather-light 22 grams and can still house all those features. The liquid silicone band is hypoallergenic and features a secure metal closure with real 18k gold plating.

BioSense has a waterproof rating of IP68, the highest, which means it's safe up to 50 meters.

The battery lasts up to 5 days on a single charge, so don't be afraid to use the wide variety of features as often as you want.
