VISIONARY THINKING

Be a Pioneer, a Visionary, a Future Maker

Today's world is evolving rapidly, with *new technologies driving this fast-paced change*. And yet many in society are skeptical about this transformation through fear of the new and about being assimilated into systems beyond their control. Many also worry about data security and privacy.

At Vyvo, especially within SocialFi, we encourage you to think outside the box. **We are at the forefront of a historical transformation, striving to adapt our community to this new frontier.**

The best way to predict the future is to invent it
- *Alan Kay*

Challenge the status quo and embrace innovative thinking to transform the future.

ENVIRONMENTAL INFLUENCE

Shape Your Surroundings, Design Your Destiny

With the rise of social media and its potential to boost visibility for Vyvo Influencers like you, a phenomenon often follows: encountering haters. As you undergo a life transformation and achieve success, some people, unable to attain similar success, may express skepticism, make accusations, or even ridicule you. However, it's important to recognize that such reactions often stem from jealousy, or not having enough information.

Similarly, within your family, you might face resistance, not out of disapproval but because they are unaccustomed to the path you're taking. They may feel more comfortable seeing you in a stable, traditional job.

So the question is: Will you let others' doubts and unfamiliarity hold you back? As a Future Maker, your answer should be a resounding "No!" Embrace your journey confidently, knowing that you're paving the way toward a groundbreaking future. So say "YES!" to your new future!

Stay resilient against skepticism. Your path is about innovation, not tradition.

- Professionals, such as tech or health experts, who aim to adapt our concept to more institutional settings like universities or medical centers, rather than focusing on widespread people participation.

LEADS INVITATION TOOL

To become an Influencer, you need followers connected to you. To maintain those connections, it's crucial to manage your leads effectively. Vyvo SocialFi has developed a tool specifically for this purpose—the "Leads Invitation Tool."

This tool leverages a compelling video that captures prospects' attention by thoroughly and engagingly telling the Vyvo story.

This approach helps prevent any miscommunication or unintentional misleading that might occur when trying to explain such cutting-edge concepts.

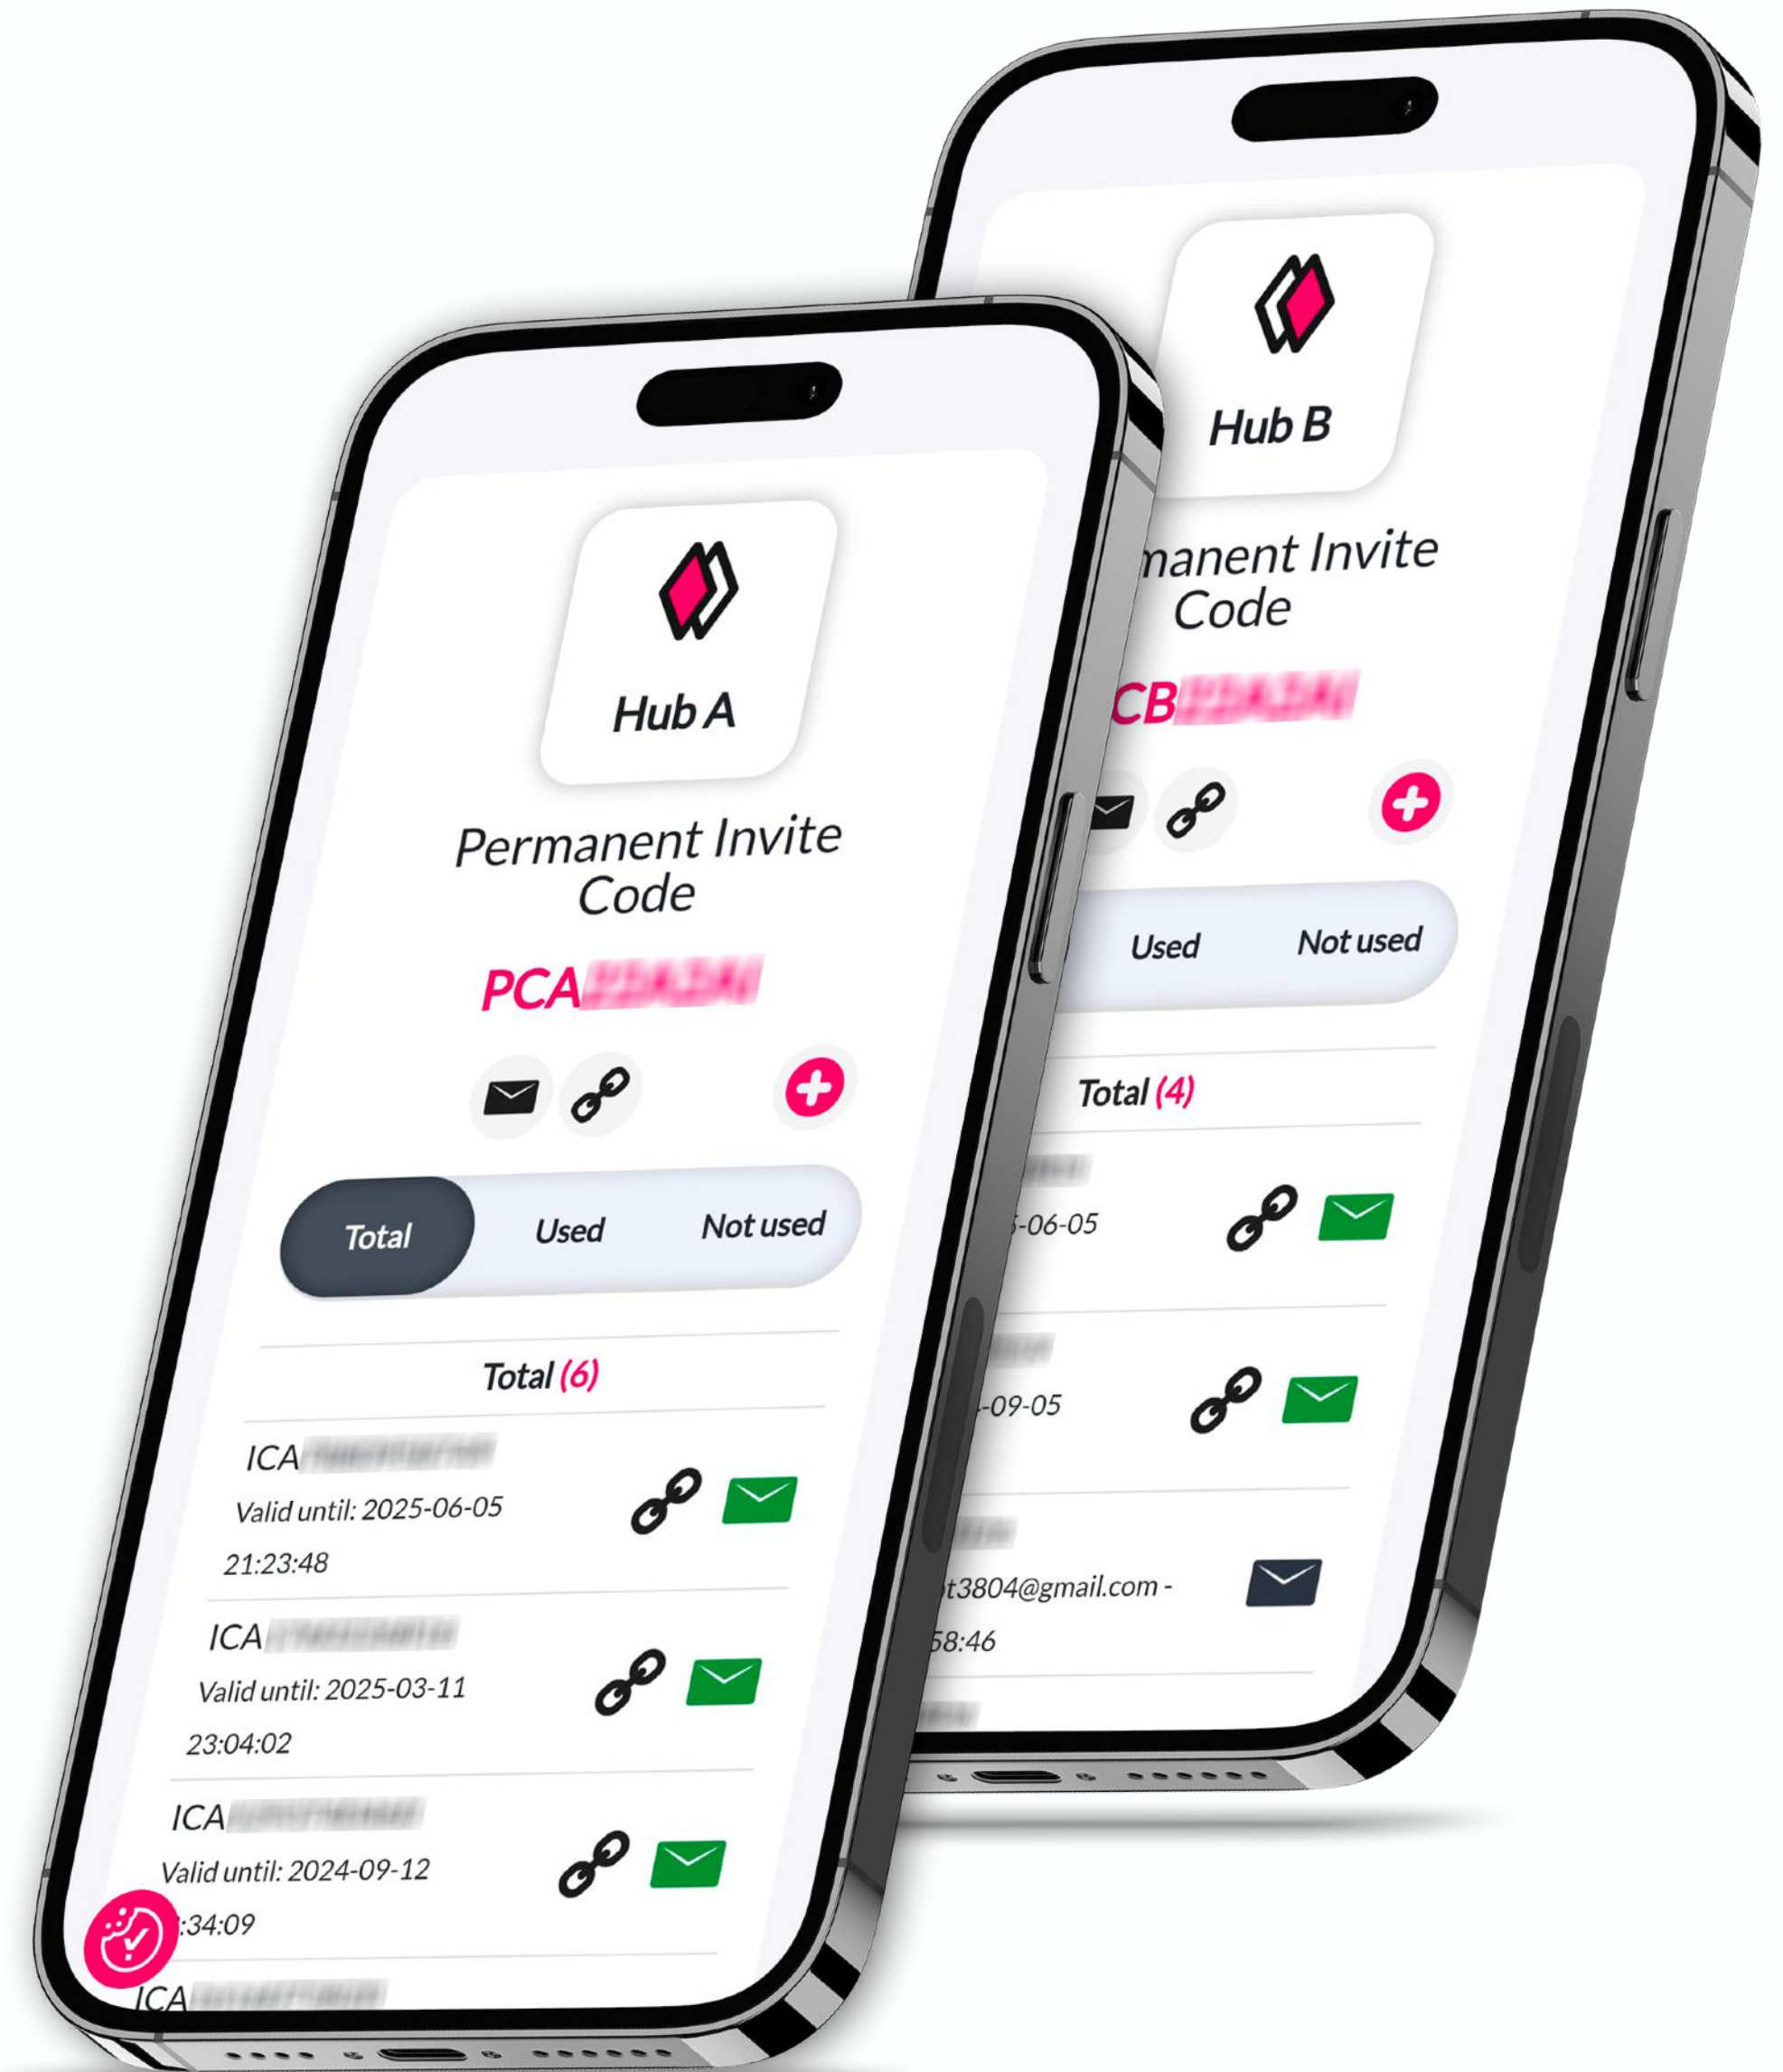

Let our video do the work!

PRESENTATION TOOL

Should a prospect require more in-depth information about Vyvo SocialFi, this comprehensive presentation covers all aspects discussed in the video, providing a detailed overview of our Influencer program.

<https://vyvosocialfi.com/a-new-era-of-empowerment/>

THE PRESENTATION TOOL

The follow-up after the initial video should undoubtedly encourage the new prospect to participate in our program. In some cases, they may autonomously follow the path and get plugged in, while in others, they may request further explanation and details from you. In the latter scenario, it's essential to invite them to attend a full presentation.

If you feel confident in conducting the presentation yourself, invite your new Member at the earliest available opportunity. Alternatively, collaborate with other Vyvo Influencers to host the weekly Saturday presentation either online or in person.

Train and empower your new Members effectively to foster a supportive and successful community.

ONBOARDING NEW MEMBERS

Once your prospect has connected with you and become a new Member of the Vyvo project, you face two possible scenarios:

- ❖ They may simply want to enjoy the concept and the mining, along with the benefits of the devices.
- ❖ They may feel passionate about the project and wish to contribute further to the Vyvo mission, while also seeking a greater opportunity for themselves by embarking on a career as a Vyvo Influencer.

Request your onboarding training as soon as possible. As you welcome your new Members, share this training with them. If you're just getting started and don't feel confident conducting the training yourself, collaborate with others in your community. Together, ensure that a training session is organized by your group at the beginning of each new epoch. We recommend scheduling these sessions on Tuesdays or Wednesdays.

Watch and learn, so you can train your new Members, who will then do the same.

OPTIMIZE YOUR BUSINESS PERFORMANCE

Imagine your business as a car. Just like driving a car requires access to dashboard information, effectively managing your business demands insight into its performance metrics.

Therefore, we strongly recommend that every week, after the end of each epoch, you analyze your business results together with the rest of your collaborating team.

This analysis should include:

- ◆ The number of new prospect-leads invited
- ◆ The number of new people that attended the presentation
- ◆ Conversion rate
- ◆ Feedback

Understanding what is happening and acting swiftly to adjust or improve can be the key to your success.
